

Quick Reference Guide for Accessing the 2014 Mid-Year QRURs and Supplementary Exhibits

I. Introduction

In **April 2015**, CMS made available the 2014 Mid-Year Quality and Resource Use Reports (QRURs) to every physician group practice with two or more eligible professionals (EPs) and physician solo practitioners nationwide. Although the 2016 Value Modifier (VM) will not apply to physician solo practitioners, physician groups with fewer than ten EPs, or groups with at least one physician who participated in the Shared Savings Program, Pioneer ACO Model, or Comprehensive Primary Care (CPC) Initiative in 2014, CMS made Mid-Year QRURs available to these groups and physician solo practitioners for informational purposes.

The performance period for 2014 Mid-Year QRUR is July 1, 2013 through June 30, 2014. The 2014 Mid-Year QRUR is based on the CY2014 Medicare Physician Fee Schedule Final Rule (2016 Value-Based Payment Modifier [VM] policies). Mid-Year QRURs do not include all of the measures described in the Final Rule; specifically, only exhibits with measures that can be computed via claims are included. The following measures and VM-specific calculations that are discussed in the CY2014 Final Rule are **not** included in the Mid-Year QRURs:

- a. GPRO and Individual Eligible Professional Physician Quality Reporting System (PQRS) Measures (including CAHPS)
- b. Calculations related to the VM, including, cost and quality composite scores, quality and cost performance categories (High, Average, Low), and the quality tiering categories.

More information about the 2014 Mid-Year QRURs is available at <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/2014-QRUR.html>. Information about the VM is available at <http://www.cms.gov/PhysicianFeedbackProgram>.

This Quick Reference Guide illustrates how to access and download a 2014 Mid-Year QRUR, along with the supplemental exhibits from the CMS Enterprise Portal. 2014 Mid-Year QRURs (including a 508 compliant version) and supplemental exhibits can be downloaded and exported in PDF or Excel Format. The data in the 2014 Mid-Year QRURs is also available for download to an exportable comma-separated values (CSV) file.

MID-YEAR QUALITY AND RESOURCE USE REPORT .FWQNSLYTS KFRNQD RJQNHNSJ NSH Last Four Digits of Your Taxpayer Identification Number (TIN): 7284 PERFORMANCE PERIOD: 07/01/2013 - 06/30/2014 ABOUT THIS REPORT - This Mid-Year Quality and Resource Use Report shows how your group or solo practice, as identified by your Medicare-enrolled Taxpayer Identification Number (TIN), performed during the performance period on selected quality outcomes and cost measures that Medicare calculates from fee-for-service claims data. Quality data reported as part of the Physician Quality Reporting System (PQRS) are not included in this report. - This report is provided for informational purposes only. It will not affect your Medicare Physician Fee Schedule payments and is not intended to predict future value-based performance. The information contained in this report is believed to be accurate at the time of production. The information may be subject to change at CMS' discretion, including but not limited to circumstances in which an error is discovered. WHAT'S NEXT - The Centers for Medicare & Medicaid Services (CMS) will continue to phase in the Value Modifier for Medicare Physician Fee Schedule payments. - The Annual Quality and Resource Use Report, which will be disseminated in late summer 2015, will provide full information about your TIN's value-based performance in 2014, as applicable. Because the Annual Quality and Resource Use Report will be based on a different performance period, note that the metrics and performance rates computed for each exhibit in this report may change. - In 2016, TINs with 10 or more eligible professionals that submit claims to Medicare and that have been identified through the Provider Enrollment, Chain and Ownership System, will be subject to the Value Modifier. The Value Modifier will be based on these TINs' participation in the Physician Quality Reporting System (PQRS) and on their quality and cost performance in 2014. - The 2016 Value Modifier will not apply to those TINs in which at least one physician participated in the Medicare Shared Savings Program (MSSP), the Pioneer ACO Model, or the Comprehensive Primary Care (CPC) Initiative in 2014. QUESTIONS? - Contact the QRUR Help Desk at 1-888-734-6433 (select option 3) with questions or feedback about this report. - For more information about the policies governing the 2016 Value Modifier, please see http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/.
