

Quick Reference Guide for Accessing the 2013 QRUR and Performance Dashboard

I. Introduction

On September 30th, 2014, the Centers for Medicare and Medicaid Services (CMS) made available the 2013 Quality and Resource Use Reports (QRURs) to every physician group practices and solo practitioner nationwide. The 2013 QRURs are not available for groups and solo practitioners that participated in the Medicare Shared Savings Program, the Pioneer Accountable Care Organization Model, or the Comprehensive Primary Care Initiative in 2013 or for non-physician solo practitioners or groups (e.g., nurse practitioners) that did not have at least one physician billing under the group in 2013. Group practices and solo practitioners are identified in the QRURs by their Taxpayer Identification Number (TIN). The 2013 QRURs contain data regarding quality and cost of care for calendar year (CY) 2013. This is the same performance period that will be used for calculating the Value-Based Payment Modifier (VM) applicable to physician payments for items and services furnished under the Medicare Physician Fee Schedule for groups of 100 or more eligible professionals (EPs) in 2015. More information about the QRURs is available at <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/2013-QRUR.html>

More information about the VM is available at <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/ValueBasedPaymentModifier.html>

This Quick Reference Guide illustrates how to access and download a QRUR, along with the supplemental exhibits and Performance Dashboard from the CMS Enterprise Portal. The Performance Dashboard provides a summary of performance highlights and applicable VM information. It also provides quality and cost performance information in a manner that allows physician practices to see how the VM may affect their Medicare payments. The QRURs and supplemental exhibits can be downloaded and exported in PDF and Excel Format. The data in the QRUR is also available for download to an exportable comma-separated values (CSV) file.

II. Getting Started

Authorized representatives of groups and solo practitioners can access the QRURs at <https://portal.cms.gov> using an Enterprise Identify Management System (EIDM) account with one of the following roles:

- **For groups with 2 or more EPs (TINs with 2 or more individual National Provider Identifiers (NPI)):**
 - Security Official
 - Group Representative
- **For a solo practitioner (TIN with only 1 individual NPI):**
 - Individual Practitioner
 - Individual Practitioner Representative

Instructions for obtaining an EIDM account to access a QRUR are available at <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/Obtain-2013-QRUR.html>.

- If a group has already registered and selected its PQRS group reporting mechanism in the PV-PQRS Registration System, then that same person who registered the group can access the group's QRUR using their EIDM User ID and password.
- If a group or solo practitioner does not have an authorized representative with an EIDM account, then one person representing the group or solo practitioner must sign up for an EIDM account with the Security Official role (if representing a group) or the Individual role (if representing a solo practitioner).
- If a group or a solo practitioner has a representative with an existing EIDM account, but not one of the group-specific (if representing a group) or individual-specific (if representing a solo practitioner) roles listed above, then ensure that the account is still active and then add a group or individual-specific role to that person's existing EIDM account. To ensure the EIDM account is still active, please contact the QualityNet help desk.

4. The **Medicare Fee-for-Service Value-Based PY2013 Performance Dashboard** is displayed within the MicroStrategy Web Platform. The page that appears first is the **Summary**.

The Dashboard contains the following sections:

- Summary
- Quality Details
- Cost Details

5. Click on any of the section tabs at the top of the screen to navigate between sections of the Dashboard.

Note1: After you click on a section tab, you will need to wait several seconds for the section to appear on the screen.

Note2: All of the data displayed in the performance dashboard are available in an exportable comma-separated values (CSV) file. Refer to Section V - Download the QRUR Data to a CSV File of the guide for instructions. A data dictionary to supplement the CSV file is available here (<http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/2013-QRUR.html>).
