Shaded rows indicate Regions in which 2 PDP Organizations owned by same corporation were treated as single "merged" organization for purposes of auto-assignment at the organization level. For example, in Region 1, there are 12 PDP Organizations, but for purposes of auto-assign at the organization level, two organizations were treated as one, so the universe of 63,290 full-benefit dual eligibles was divided by 11, resulting in 5,754 full-benefit dual eligibles assigned to each organization.
