National Provider Identifier

- **Type 1**
  Individual healthcare providers (i.e., physicians, dentists, chiropractors, physical therapists)

- **Type 2**
  Organizational healthcare providers (i.e., hospitals, home health agencies, clinics, labs, group practices, suppliers of durable medical equipment)

Providers must obtain an NPI prior to enrolling in the Medicare Program.

Healthcare providers can apply for NPIs in one of three ways:

- Online via National Plan & Provider Enumeration System (NPPES)
- Paper NPI Application/Update Form (CMS-10114)
- Electronic File Interchange (EFI) whereby an approved EFI Organization can submit the healthcare provider’s application on their behalf (i.e., through a bulk enumeration process).

NPPES Registry (for online queries):

Taxonomy Codes vs. Specialty Types

**Taxonomy Codes**
- Providers select a taxonomy code when applying for an NPI
- Uniquely identifies providers in order to assign them NPIs, not to ensure that they are credentialed or qualified to render health care
- May or may not be the same category used by Medicare for enrollment purposes

**Specialty Types**
- Self-designated on the CMS-855 application
- Describes the specific type of medical practice or services provided
- Used by CMS for enrollment and claims processing
Taxonomy / Specialty Crosswalk

- CMS crosswalks the types of providers/suppliers who are eligible to enroll in Medicare with the appropriate taxonomy codes.

- Can be accessed at [data.cms.gov/Medicare-Enrollment/CROSSWALK-MEDICARE-PROVIDER-SUPPLIER-to-HEALTHCARE/j75i-rw8y](data.cms.gov/Medicare-Enrollment/CROSSWALK-MEDICARE-PROVIDER-SUPPLIER-to-HEALTHCARE/j75i-rw8y)

Poll Question
What is a PTAN?

- A Medicare-only number issued to providers upon enrollment to Medicare
- Used to authenticate the provider when using the Interactive Voice Response (IVR) phone system, internet portal or on-line application status
- The PTAN's use should generally be limited to the provider’s contact with their MAC
- The NPI must be used to bill the Medicare program
Physician / Non-Physician PTANs

- Individuals are assigned PTANs based on their private practice and group affiliations (i.e. sole proprietor, reassignment of benefits)

- Individuals who reassign their benefits receive a member PTAN for each group PTAN they reassign to

- A sole owner would have a Group PTAN assigned for the business and a member PTAN for themselves
Group / Supplier PTANs

- PTANs are assigned per EIN, per State
- An existing provider would require a new PTAN if:
  - Adding a new location in a different payment locality in the same State
  - Enrolling a different provider type
  - Exception: Hospitals that receive a PTAN per department
What is a CCN?

- A CCN is a CMS Certification Number issued to Part A/B certified providers.
- Used for verifying Medicare certification, assessment-related activities and communications.
- The CMS RO assigns the CCN:
  - 6 or 10 digits
  - The first 2 digits identify the state in which the provider is located.
  - The last 4 digits identify the type of facility.

Conversion Steps:

- Follow current process for creating a new application
- PECOS displays existing approved enrollment and uses it to pre-populate the new application
- Provider must confirm the withdrawal of the existing 855O enrollment

- Convert from an ordering and certifying only provider to a billing provider and vice versa
- No break in billing
- The effective date of the withdrawn 855O is one day prior to the effective date of the 855I
CMS-855O is a national enrollment

Providers who relocate to another state are not required to dis-enroll in the current state and re-enroll in the new state

The MAC that maintains the CMS-855O enrollment in PECOS will process the change of information, even if the provider is relocating to a state outside of their jurisdiction

The MAC will update the provider’s record with any new licenses and/or certifications obtained as a result of the provider’s relocation

“Verification must occur of licenses and or certifications. The only licenses that must be submitted with the application are those required by Medicare or the state to function as the supplier type in question. Licenses and permits that are not of a medical nature are not required, …

If the MAC is aware that a particular state does not require license/certification and the “Not Applicable” boxes are not checked in Section 2C, no further development is needed. “

“Communications regarding the processing of the CMS-855R shall be sent to the contact person listed. If multiple contact persons are listed, the MAC shall contact the first contact person listed on the application. If they are not available, the MAC shall contact the other person(s) listed, unless the individual practitioner indicates otherwise via any means.”
“A physician/eligible professional need not submit a copy of his/her degree unless specifically requested to do so by the MAC. To the maximum extent possible, the MAC shall use means other than the physician’s submission of documentation—such as a State or school Web site—to validate the person’s educational status.”

“If the physician/eligible professional is submitting an initial enrollment application a PTAN need not be listed, as one has not been assigned; the physician/eligible professional can enter the word “pending” in this field or leave the field blank.

If the 855O enrollment is being terminated, the PTAN should be listed… The MAC may use the shared systems, PECOS, or its provider files as a resource for determining the PTAN before developing for this information.”
“On the CMS-855I, the physician must indicate his/her supplier specialties, showing "P" for primary and "S" for secondary. The provider may select only one primary specialty but may select multiple secondary specialties. A physician must meet all Federal and State requirements for the type of specialty(s) checked....”

“The physician assistant must furnish his/her NPI in section 1 of the application, and must list his/her employers in section 2E. Since PAs cannot reassign their benefits – even though they are reimbursed through their employer – they should not complete a CMS-855R.....”
