

## Announcement re: 2009 eRx Incentive Payments

### Incentive Payment Update for 2009 Electronic Prescribing (eRx) Incentive Program

Incentive payments for the 2009 Electronic Prescribing (eRx) Incentive Program are available this fall for eligible professionals who met the criteria for successful reporting. As of September 21, 2010, the 2009 eRx incentive payments are currently being processed and distributed by Carriers and Medicare Administrative Contractors (MACs). Distribution of the 2009 eRx incentive payments are scheduled to be completed by October 22, 2010.

Remember that eRx incentives earned by individual participating physicians and other eligible professionals are paid as a lump-sum to the Taxpayer Identification Number (TIN) under which the EP's claims were submitted. It is then up to the TIN to decide how to distribute the incentive within the practice.

Effective January 2010, CMS revised the manner in which incentive payment information is communicated to eligible professionals receiving electronic remittance advices. CMS has instructed Medicare contractors to use a new indicator of **LE** to indicate incentive payments instead of LS. **LE** will appear on the electronic remittance advice. Additionally the paper remittance advice will read "This is an eRx incentive payment." It will not include the year and indicator **LE** in the paper remittance. In an effort to further clarify the type of incentive payment issued (either PQRI or eRx incentive), CMS created a 4-digit code to indicate the type of incentive and reporting year. For the 2009 eRx incentive payments, the 4-digit code is **RX09**. This code will be displayed on the electronic remittance advice along with the LE indicator. For example, eligible professionals will see **LE** to indicate an incentive payment, along with **RX09** to identify that payment as the 2009 eRx incentive payment.

2009 eRx feedback reports will be available on the Physician and Other Health Care Professionals Quality Reporting Portal (<http://www.qualitynet.org/pqri>) starting the second week of November. TIN-level reports on the Portal require an Individuals Authorized Access to CMS Computer Services (IACS) account. Participants may also contact their Carrier/MAC to request individual NPI-level reports via an alternate feedback report fulfillment process (see <http://www.cms.gov/MLN MattersArticles/downloads/SE0922.pdf>). Watch for additional feedback report information from CMS.
