

## CMS Hospice Public Reporting Key Dates for Providers

CMS encourages providers to be familiar with the important dates outlined in the tables below. Providers will need to submit all HIS modification or inactivation records prior to the “freeze date” and, beginning January 1, 2019, the 4.5 month data correction deadline for public reporting for the modifications to be reflected in the corresponding HIS Provider Preview Report and Hospice Compare refresh.

**\*Note: The “freeze date” always occurs before the HIS Provider Preview Report becomes available in your CASPER folder.** Once your Preview Report is issued, it is too late to modify the underlying HIS data included in the report, which will be publicly posted during the corresponding Hospice Compare refresh. If a hospice disagrees with their quality measure results (denominator or quality metric) contained within their HIS Provider Preview Report, they will have an opportunity to request review of the calculations by CMS. Please see the [HIS Preview Report and Requests for CMS Review of HIS Data](#) Tab for more information.

#### 4.5 Month Data Correction Deadline for Public Reporting

To improve upon the freeze date policy and ensure that Hospice Compare is an accurate and consistent representation of hospice quality, CMS instituted a 4.5 month data correction deadline for public reporting in the FY 2019 Hospice Final Rule. This new 4.5 month data correction deadline for public reporting will eventually replace the “freeze date.”

Under this new policy, beginning January 1, 2019, providers will have 4.5 months following the end of each calendar year (CY) quarter to review and correct their HIS records with target dates (which is the admission date for HIS-Admission records and discharge date for HIS-Discharge record) in that quarter for public reporting. After this 4.5 month data correction deadline has passed, HIS data from that calendar quarter will be permanently frozen for the purposes of public reporting. Updates made after the correction deadline will **not appear** in any subsequent Hospice Compare refresh.

This policy is at the HIS record-level, meaning a patient's HIS-Admission and HIS-Discharge records may have different data correction deadlines. Under this policy, HIS records with target dates before January 1, 2019 must be reviewed and corrected, if necessary, by August 15, 2019.

#### Calendar Year 2019 Data Correction Deadlines for Public Reporting
