Errata V2.01.1 for HOSPICE Data Submission Specifications Version 2.01.0

Errata History

07/07/2017   Issue 01 was added.

Issue ID	Problem	Resolution	Status
01	The text of warning edit -3077 currently reads as follows: If N0500A=[1] or N0510A=[1], then J0905 should be equal to [1] if opioids were used to treat pain. However, opioids may be used to treat other symptoms, in which case J0905 should be equal to [0].	The text of edit -3077 will be revised to read as follows: If N0500A=[1] or N0510A=[1], indicating a scheduled or PRN opioid was initiated or continued, and J0905 = [0], then: (a) If the opioid was used to treat pain, J0905 should be equal to [1]. (b) If the opioid was used to treat another symptom (e.g., shortness of breath) AND there is no further evidence that pain is an active problem for the patient, leave J0905 equal to [0] and disregard this warning message.	These changes will be made in the next version of the Hospice Data Submission Specs.
