

Hospital Inpatient Quality Reporting Program Measures International Classification of Diseases, 10th Edition, Clinical Modification System (ICD-10-CM) DRAFT Code Sets

CMS Seeks Informal Public Comment

To solicit feedback on the potential impact of transitioning from the ICD-9 Clinical Modification System (ICD-9-CM) to ICD-10-CM on CMS' Hospital Inpatient Quality Measures, CMS is hosting an informal public comment period on the crosswalks of ICD-9 to ICD-10 codes used for these measures. This ensures that the Centers for Medicare & Medicaid Services (CMS) measure specifications continue to be of the highest caliber possible by utilizing a transparent process with input from relevant stakeholders. CMS will accept informal public comments until August 31, 2013 at 5 p.m. EDT.

This document contains the current ICD-9-CM codes used in the Specifications Manual for National Hospital Inpatient Quality Measures *cross-walked* to the corresponding ICD-10 codes in table format. Specifically, we invite feedback on the relevancy and applicability of the ICD-10-CM codes listed.

Please submit comments via the email addresses listed below, based on table numbers, as some of the tables correspond to measures maintained by the Joint Commission.

For Tables 6.1, 7.01- 7.04, 8.1-8.3 and 13.1 - 13.3, submit comments to ICD10CODES@jointcommission.org.

For all other tables, submit comments to ICD10feedback@okqio.sdps.org.
