-
1. See technical appendix for a detailed explanation of the measures and how they are calculated.
 2. Measure is based upon a sample of the hospital's relevant discharges.
 3. The number of cases is less than 25 and is too small to report.
 4. No cases for all six months for this measure.

There were no cases reported for one or more months, July-December 2002. The percentage displayed is based on the months in which cases were reported.
