2019 Data Specifications

OASIS Data Specifications V2.21.1

The OASIS Data Submission Specifications Version 2.21.1 are now available in the downloads section below. This FINAL version applies to the OASIS-C2 item set which is scheduled for implementation on January 1, 2018. There have been no additional changes since Errata V2.21.1.

Errata Document V2.21.1 for OASIS Data Specifications V2.21.0

An errata document for the OASIS Data Submission Specifications Version 2.21.0 has been posted in the downloads section below. Two issues have been identified. One issue adds three items to the calculation section of the data specifications; note that there is no change to the item sets. The other issue adds an additional edit in Section M.

OASIS Data Specifications V2.21.0

The OASIS Data Submission Specifications Version 2.21.0 are now available in the downloads section below. This DRAFT version applies to the OASIS-C2 item set which is scheduled for implementation on January 1, 2018. Please note the addition of edit -5480 for item M0063_MEDICARE_NUM, as well as its implementation, which is described on page 2 of the Overview document.

OASIS Data Specifications V2.20.1

The OASIS Data Submission Specifications Version 2.20.1 are now available in the downloads section below. This FINAL version applies to the OASIS-C2 item set which is scheduled for implementation on January 1, 2017. This version incorporates the specification changes identified in Errata Document V2.20.3.

Updated!!! Errata Document V2.20.3 for OASIS Data Specifications V2.20.0

An errata document for the OASIS Data Submission Specifications Version 2.20.0 has been updated in the downloads section below. In total, ten issues have now been identified. Please take note of issue 10 in particular, which has resulted in the addition of several skip pattern edits that were inadvertently omitted from the data specifications.

Note that errata documents will now be assigned a version number for clarity. The minor number (last digit on the right) will be incremented each time the errata is updated. This is the third release of the errata, so the version is V2.20.3.

OASIS Data Specifications V2.20.0

The OASIS Data Submission Specifications Version 2.20.0 are now available in the downloads section below. This new version applies to the OASIS-C2 item set which is scheduled for implementation on January 1, 2017. These specifications are considered DRAFT.

OASIS Data Specifications V2.12.0 Update

The OASIS Data Submission Specifications V2.12.0 (consisting of the previously posted OASIS-C1 Data Submission Specs and the subsequent Errata document) are now considered FINAL.

Updated!!!OASIS Data Specifications V2.12.0 Errata Document

Fifth Update! A fifth revision to the errata for the OASIS Data Submission Specifications Version 2.12.0 is now available in the downloads section below. One issue has been rescinded and another has been added. A total of fourteen issues are now identified in the errata (two have been rescinded). **NOTE: Issue 13 is of critical importance and should be reviewed immediately.**

OASIS Data Specifications V2.12.0

OASIS Data Submission Specifications Version 2.12.0 is now available in the downloads section below. This new version applies to the OASIS-C1/ICD-10 item set which is scheduled for implementation on October 1, 2015.

OASIS Data Specifications V2.11.3 and Errata Document

OASIS Data Submission Specifications Version 2.11.3 is now available in the downloads section below. This new version applies to the OASIS-C1/ICD-9 item set which is scheduled for implementation on January 1, 2015. Version 2.10.1 of the data specifications, which was previously posted and which applies to OASIS-C, is also scheduled for implementation on January 1, 2015.
In addition to the data submission specifications, a new version of the Errata document for versions 2.10 and 2.11 of the data specifications is also available in the downloads section below. Please note the following important information regarding the errata document:

   • Three errata issues (A53, A54, and A55) were identified after V2.11.3 of the OASIS-C1/ICD-9 data specifications was put into production. These three issues have not been implemented in V2.11.3 of the data specifications. Users of the data specs must treat the resolutions of these three issues as part of the V2.10 and V2.11 data submission specifications.

   • No further updates are planned for V2.10 of the OASIS-C data specs; V2.10.1 is therefore the last release

planned for OASIS-C. The issue resolutions listed in Sections A and B of the Errata document have not been implemented in V2.10.1 of the data specifications. Users of the OASIS-C data specs must treat the resolutions of all of the issues listed in Sections A and B as part of the V2.10 data submission specifications.
