### **Preview Reports- Now Available**

Prior to the release of data on LTCH Compare, LTCHs will be given the opportunity to review data during a 30-day preview period. The reports are available from September 1- September 30, 2016. Reports can be accessed via Certification and Survey Provider Enhanced Reports (CASPER) application, which is accessible from their "Welcome to the CMS QIES Systems for Providers" page. As finalized in the FY 2017 LTCH PPS final rule, corrections to the underlying data will not be permitted during this time; however, LTCHs may request CMS review of the data contained within their Preview Report, should they believe it to be inaccurate. All such requests must be made during the 30-day preview period.

Instructions on how to access the reports are available in the Download section below.
