

## Technical Expert Panel Composition (Membership) List

### **Project Title:**

*CMS Quality Measure Development Plan: Supporting the Transition to the Merit-based Incentive Payment System (MIPS) and Alternative Payment Models (APMs)*

### **Dates:**

The nomination period for this call for the CMS Measure Development Plan Technical Expert Panel (TEP) extended from December 7, 2017, to January 8, 2018. The TEP will convene in person in Tampa, Florida, for a 1½-day meeting on May 2–3, 2018. Up to four additional meetings by conference call and webinar are anticipated during the 16-month term of service of the TEP.

### **Project Overview:**

The Centers for Medicare & Medicaid Services (CMS) has contracted with Health Services Advisory Group, Inc. (HSAG) to develop and update the *CMS Quality Measure Development Plan: Supporting the Transition to the Merit-based Incentive Payment System (MIPS) and Alternative Payment Models (APMs)*. CMS initiated this project under the contract titled Impact Assessment of CMS Quality and Efficiency Measures, #HHSM-500-2013-130071; Task Order #HHSM-500-T0002. As part of its measure development process, CMS asks measure developers to convene groups of stakeholders and experts who contribute direction and thoughtful input to the measure developer during measure development and maintenance. The CMS Quality Measure Development Plan (MDP) is mandated by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) and serves as a strategic framework for clinician quality measure development to support MIPS and Advanced APMs, together known as the Quality Payment Program. To meet the requirements of the statute, CMS posted the draft MDP on December 18, 2015, and opened a public comment period through March 1, 2016. The revised MDP incorporates key themes and specific recommendations identified during review of the public comments. The plan was posted on the CMS.gov website in May 2016, to be followed by updates as appropriate. An annual report chronicling the progress made in advancing quality measures for the Quality Payment Program is required to be posted on the CMS website. The first MDP Annual Report was posted in June 2017.

HSAG is convening this group of stakeholders and experts (e.g., frontline clinicians, patients/caregivers, and professional societies) to contribute direction and thoughtful input on the annual progress report and updates of the MDP required under MACRA. The following individuals were selected and have agreed to serve as the Technical Expert Panel for this project. They will continue the essential work to support the MDP in guiding and prioritizing measure development for a payment program that promotes measurable improvement in patient outcomes, relieves clinicians' reporting burden, and includes measures that are meaningful to patients and clinicians.
