Project Title:

Quality measures to satisfy the Improving Medicare Post-Acute Care Transformation Act of 2014 (IMPACT Act) domain of: Transfer of Health Information and Care Preferences When an Individual Transitions.

1. Transfer of Information at Post-Acute Care Admission, Start, or Resumption of Care from Other Providers/Settings
2. Transfer of Information at Post-Acute Care Discharge or End of Care to Other Providers/Settings

Dates:

The TEP webinar took place on September 27, 2016.

Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with RTI International and Abt Associates to develop and refine a cross-setting post-acute care transfer of health information and care preferences quality measure as required by the Improving Medicare Post-Acute Care Transformation Act of 2014 (known as the IMPACT Act). The contract names are Development and Maintenance of Symptom Management Measures (contract number HHSM-500-2013-13015I; Task Order HHSM-500-T0001) and Outcome and Assessment Information Set (OASIS) Quality Measure Development and Maintenance Project (contract number HHSM -500-2013-13001I, Task Order HHSM-500T0002). As part of its measure development process, CMS asks contractors to convene groups of stakeholders and experts who contribute direction and thoughtful input to the measure contractor during measure development and maintenance. The following individuals were selected and agreed to serve as the Technical Expert Panel for this project.
