

## **Qualified EHR Data Submission Vendors for the 2012 Physician Quality Reporting System and Electronic Prescribing (eRx) Incentive Programs**

CMS is pleased to announce the EHR Data Submission vendors that have been “qualified” to submit quality data to CMS by eligible professionals for the 2012 Physician Quality Reporting System program year. Each of these EHR Data Submission vendors has completed a thorough vetting process to verify they have the capability to provide the required data elements for the measures they intend to submit. A list of the 51 measures may be found in the EHR measure specifications located under the section page entitled “Alternative Reporting Mechanisms” on the CMS website, available at <http://www.cms.gov/PQRS>. The file is titled “2012 Physician Quality Reporting System EHR Measure Specifications” and can be found in the 2012 EHR Documents for Eligible Professionals ZIP file. The vendors indicating they plan to report “All 2012 EHR Measures\*\*” are qualified to report all 51 PQRS EHR measures. These measures are: 1, 2, 3, 5, 6, 7, 8, 9, 12, 18, 19, 39, 47, 48, 53, 64, 66, 71, 72, 102, 110, 111, 112, 113, 117, 119, 128, 163, 173, 197, 200, 201, 204, 226, 236, 237, 238, 239, 240, 241, 305, 306, 307, 308, 309, 310, 311, 312, 313, 316 and 317. Some EHR Data Submission Vendors are also capable of reporting the electronic prescribing (eRx) measure to CMS as listed in the following table.

Eligible professionals who wish to participate in 2012 PQRS using one of the EHR Data Submission Vendors may contact the vendors listed below for additional details. Due to an extended testing period, some vendors may have additional capabilities that are not listed on this posting. Please check with the vendor for additional information.

*Disclaimer: While CMS makes every effort, by way of a vigorous testing process, to ensure that these data submission vendors will be able to submit their eligible professional’s quality measures data to CMS, CMS cannot guarantee that any individual eligible professional will be successful. Each vendor has reviewed their organization’s information below and provided confirmation of accuracy. Information included in this document was accurate at the time posting; however CMS cannot guarantee that these services will be available during the submission period.*

\*CMS encourages data submission vendors to disclose cost information incurred by their clients but it is not required from the 2012 Qualified Data Submission Vendors. Cost disclosure will be required from Qualified Data Submission Vendors in the 2013 program year.
