

## 2015 Physician Quality Reporting System Qualified Registries

CMS is pleased to announce the 2015 qualified registries. These entities have self-nominated and indicated that they meet the requirements as outlined by CMS in the 2015 Physician Fee Schedule final rule. The 2015 qualified registries are able to report quality measure data to CMS, on behalf of individual eligible professionals (EPs) and Group Practice Reporting Organization (GPRO) group practices, for the 2015 Physician Quality Reporting System (PQRS) program year.

In the table below, each of the self-nominated 2015 qualified registries has provided detailed information regarding the services they offer their clients, as well as the cost incurred by their clients. If the qualified registries are supporting individual measures, they have attested that they can report on at least 9 measures covering 3 National Quality Strategy (NQS) domains for at least 50 percent of an EP's/GPRO's Medicare Part B Fee For Service patients. Of the measures reported, if the EP or group practice sees 1 Medicare patient in a face to face encounter, they must report on at least 1 cross cutting measure (included in the 9 measures) in order to avoid the 2017 payment adjustment. If the vendors are supporting measures groups, they have attested that they can report at least 1 measures group on behalf of an EP for at least a 20-patient sample, a majority of which (at least 11 out of 20) must be Medicare Part B FFS patients.

EPs and GPRO group practices, wishing to participate in 2015 PQRS through a qualified registry, may contact the entities listed below for additional details.

*Disclaimer: Each vendor has reviewed their organization's information below and provided confirmation of accuracy. Information included in this document was accurate at the time posting; however CMS cannot guarantee that these services will be available or that the vendor will be successful uploading their files during the submission period. CMS cannot guarantee an eligible professionals success in providing data for the program. Successful submission is contingent upon following the PQRS program requirements, the timeliness, quality, and accuracy of the eligible professionals data provided for reporting, and the timeliness, quality, and accuracy of the XML programming of the vendor.*

Clinical Support Services Registry	Celia Gonser – <a href="mailto:cgonser@csshealth.com">cgonser@csshealth.com</a> James Notaro – <a href="mailto:jnotaro@csshealth.com">jnotaro@csshealth.com</a> Eric Schmidt – <a href="mailto:eschmidt@csshealth.com">eschmidt@csshealth.com</a> 716-541-0273	Yes	1, 6, 7, 32, 33, 39, 40, 41, 46, 47, 51, 52, 110	None	Yes	CSS offers a full line of care management, care improvement and PQRS submission services. CSS “bolts” into the practice to identify patients who qualify for quality metrics, identify patients with quality gaps and support the practice in closing care gaps. The result of this effort is a PQRS registry. Services generally require an implementation fee (~\$1000) and an ongoing per patient per month fee (\$10 per patient per measure per month or Minimum \$1000 per month). Services provide best results when implemented for 6 or more months

We report on all measures and measure groups via all applicable data submission pathways with a 100% success rate. Our services and solutions allow providers and practices to effectively manage outcomes in support of PQRS, MU, Values Based Payment Modifier (VBPM), ACO, PCMH and Population Health from a programmatic as well as a reporting perspective. Our products can be viewed at <a href="http://www.reportingmd.com/products.html">http://www.reportingmd.com/products.html</a></p> <p><b>Total Outcomes Management (TOM):</b> Ideal for large practices that want to manage outcomes through our secure client web portal. TOM™ is ONC Certified HIT Stage 2 Meaningful Use and facilitates single submission for both PQRS and MU. This solution provides the ability to manage singular or multiple TINs for GPRO or individual EP. In addition, track your VBPM performance, optimize and manage patient outcomes, and maximize VBPM quality scores. Interfaces available for all EHRs. Program navigation for PQRS, MU, VBPM is free for TOM users!</p> <p><b>Medical Informatics Calculator (MIC):</b> Our MIC product is a data entry application starting at \$249/provider for up to 9 individual measures or 1 measure group. This tool is primarily designed for solo EPs or small group practices that can report on Measures Groups but has the capability of allowing for Individual Measures reporting as well.</p> <p><b>Contact us for a demo and customized pricing. WebOutcomes LLC	<a href="tel:866-221-1870">866-221-1870</a> , Option 2 <a href="mailto:sales@weboutcomes.com">sales@weboutcomes.com</a> <a href="http://weboutcomes.com">http://weboutcomes.com</a>	Yes	126, 127, 128, 130, 131, 134, 154, 155, 173, 181, 182, 226	None	Yes	WebOutcomes—a WebPT company—is an online software tool that allows physical and occupational therapists to measure and track patient outcomes. WebOutcomes offers registry-based PQRS measures submission for \$399 annually, with a \$99 per-year charge for each additional clinic.
WebPT, Inc	<a href="tel:866-221-1870">866-221-1870</a> , Option 2 <a href="mailto:sales@webpt.com">sales@webpt.com</a> <a href="http://webpt.com">webpt.com</a>	Yes	126, 127, 128, 130, 131, 134, 154, 155, 173, 181, 182, 226	None	Yes	WebPT is a web-based electronic medical record (EMR) for physical, occupational, and speech therapists. WebPT's PQRS registry is integrated with its documentation platform, which means users report PQRS measures directly within the patient record. WebPT then aggregates that data, compiles it into a digital form, and submits it to CMS. Essentially, WebPT handles the majority of PQRS for its customers. The registry-based reporting option costs \$399 annually, with a \$99 per-year charge for each additional clinic.
