

**2015 Registry Individual Measure Flow**  
**PQRS #104 NQF #0390: Prostate Cancer: Adjuvant Hormonal Therapy for High Risk**  
**Prostate Cancer Patients**

**SAMPLE CALCULATIONS:**

**Reporting Rate=**

$$\frac{\text{Performance Met (a=4 episodes) + Performance Exclusion (b¹+b²=1 episode) + Performance Not Met (c=2 episodes)}}{\text{Eligible Population / Denominator (d=8 episodes)}} = \frac{7 \text{ episodes}}{8 \text{ episodes}} = 87.50\%$$

**Performance Rate=**

$$\frac{\text{Performance Met (a=4 episodes)}}{\text{Reporting Numerator (7 episodes) – Performance Exclusion (b¹+b²=1 episode)}} = \frac{4 \text{ episodes}}{6 \text{ episodes}} = 66.67\%$$

\*See the posted Measure Specification for specific coding and instructions to report this measure.

**2015 Registry Individual Measure Flow**  
**PQRS #104 NQF #0390: Prostate Cancer: Adjuvant Hormonal Therapy for High Risk Prostate Cancer Patients**

Please refer to the specific section of the Measure Specification to identify the denominator and numerator information for use in reporting this Individual Measure.

1. Start with Denominator
2. Check Patients Gender:
  - a. If Patients Gender Male equals No, do not include in Eligible Patient Population. Stop Processing.
  - b. If Patients Gender Male equals Yes, proceed to check Patient Diagnosis.
3. Check Patient Diagnosis:
  - a. If Diagnosis of Prostate Cancer AND NOT a Diagnosis of Metastatic Cancer as Listed in Denominator equals No, do not include in Eligible Patient Population. Stop Processing.
  - b. If Diagnosis of Prostate Cancer AND NOT a Diagnosis of Metastatic Cancer as Listed in the Denominator equals Yes, proceed to check Encounter Performed.
4. Check Encounter Performed:
  - a. If Encounter as Listed in the Denominator equals No, do not include in Eligible Patient Population. Stop Processing.
  - b. If Encounter as Listed in the Denominator equals Yes, check High or Very High Risk of Recurrence, Prostate Cancer (G8465 or equivalent).
5. Check High or Very High Risk of Recurrence, Prostate Cancer (G8465 or equivalent):
  - a. If High or Very High Risk of Recurrence, Prostate Cancer (G8465 or equivalent) equals No, do not include in Eligible Patient Population. Stop Processing.
  - b. If High or Very High Risk of Recurrence, Prostate Cancer (G8465 or equivalent) equals Yes, include in the Eligible Population.
6. Denominator Population:
  - a. Denominator population is all Eligible Patients in the denominator. Denominator is represented as Denominator in the Sample Calculation listed at the end of this document. Letter d equals 8 episodes in the sample calculation.
7. Start Numerator
8. Check Adjuvant Hormonal Therapy Prescribed/Administered:
  - a. If Adjuvant Hormonal Therapy Prescribed/Administered equals Yes, include in Reporting Met and Performance Met.
  - b. Reporting Met and Performance Met letter is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter a equals 4 episodes in Sample Calculation.
  - c. If Adjuvant Hormonal Therapy Prescribed/Administered equals No, proceed to Documentation of Medical Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy.

9. Check Documentation of Medical Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy:
  - a. If Documentation of Medical Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy equals Yes, include in Reporting Met and Performance Exclusion.
  - b. Reporting Met and Performance Exclusion is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter b<sup>1</sup> equals 1 episode in the Sample Calculation.
  - c. If Documentation of Medical Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy equals No, proceed to Documentation of Patient Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy.
10. Check Documentation of Patient Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy:
  - a. If Documentation of Patient Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy equals Yes, include in the Reporting Met and Performance Exclusion.
  - b. Reporting Met and Performance Exclusion letter is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter b<sup>2</sup> equals 0 episodes in the Sample Calculation.
  - c. If Documentation of Patient Reason(s) for Not Prescribing/Administering Adjuvant Hormonal Therapy equals No, proceed to Patients Who Were Not Prescribed/Administered Adjuvant Hormonal Therapy, Reason Not Otherwise Specified.
11. Check Patients Who Were Not Prescribed/Administered Adjuvant Hormonal Therapy, Reason Not Otherwise Specified:
  - a. If Patients Who Were Not Prescribed/Administered Adjuvant Hormonal Therapy, Reason Not Otherwise Specified equals Yes, include in the Reporting Met and Performance Not Met.
  - b. Reporting Met and Performance Not Met letter is represented in the Reporting Rate in the Sample Calculation listed at the end of this document. Letter c equals 2 episodes in the Sample Calculation.
  - c. If Patients Who Were Not Prescribed/Administered Adjuvant Hormonal Therapy, Reason Not Otherwise Specified equals No, proceed to Reporting Not Met.
12. Check Reporting Not Met:
  - a. If Reporting Not Met equals No, Quality Data Code or equivalent not reported. 1 episode has been subtracted from the reporting numerator in the sample calculation.

#### **SAMPLE CALCULATIONS:**

##### **Reporting Rate=**

$$\frac{\text{Performance Met (a=4 episodes) + Performance Exclusion (b}^1\text{+b}^2\text{=1 episode) + Performance Not Met (c=2 episodes)}}{\text{Eligible Population / Denominator (d=8 episodes)}} = \frac{7 \text{ episodes}}{8 \text{ episodes}} = 87.50\%$$

##### **Performance Rate=**

$$\frac{\text{Performance Met (a=4 episodes)}}{\text{Reporting Numerator (7 episodes) – Performance Exclusion (b}^1\text{+b}^2\text{=1 episode)}} = \frac{4 \text{ episodes}}{6 \text{ episodes}} = 66.67\%$$
