

2015 Claims/Registry Individual Measure Flow
PQRS #262: Image Confirmation of Successful Excision of Image-Localized Breast Lesion

SAMPLE CALCULATIONS:

Reporting Rate=

$$\frac{\text{Performance Met (a=4 procedures)} + \text{Performance Exclusion (b=1 procedure)} + \text{Performance Not Met (c=2 procedures)}}{\text{Eligible Population / Denominator (d=8 procedures)}} = \frac{7 \text{ procedures}}{8 \text{ procedures}} = 87.50\%$$

Performance Rate=

$$\frac{\text{Performance Met (a=4 procedures)}}{\text{Reporting Numerator (7 procedures) – Performance Exclusion (b=1 procedure)}} = \frac{4 \text{ procedures}}{6 \text{ procedures}} = 66.67\%$$

*See the posted Measure Specification for specific coding and instructions to report this measure
 NOTE: Report Frequency- Procedure

2015 Claims/Registry Individual Measure Flow
PQRS #262: Image Confirmation of Successful Excision of
Image-Localized Breast Lesion

Please refer to the specific section of the Measure Specification to identify the denominator and numerator information for use in reporting this Individual Measure.

1. Start with Denominator
2. Check Patient Age:
 - a. If the Age is greater than or equal to 18 years of age on date of service and equals No during the measurement period, do not include in Eligible Patient Population. Stop Processing.
 - b. If the Age is greater that or equal to 18 years of age on date of service and equals Yes during the measurement period, proceed to check Patient Diagnosis.
3. Check Patient Diagnosis:
 - a. If Diagnosis of Breast Lesion as Listed in the Denominator equals No, do not include in Eligible Patient Population. Stop Processing.
 - b. If Diagnosis of Breast Lesion as Listed in the Denominator equals Yes, proceed to check Encounter Performed.
4. Check Encounter Performed:
 - a. If Encounter as Listed in the Denominator equals No, do not include in Eligible Patient Population. Stop Processing.
 - b. If Encounter as Listed in the Denominator equals Yes, include in the Eligible population.
5. Denominator Population:
 - a. Denominator population is all Eligible Patients in the denominator. Denominator is represented as Denominator in the Sample Calculation listed at the end of this document. Letter d equals 8 patients in the sample calculation.
6. Start Numerator
7. Check Excised Tissue Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion:
 - a. If Excised Tissue Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion equals Yes, include in Reporting Met and Performance Met.
 - b. Reporting Met and Performance Met letter is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter a equals 4 procedures in Sample Calculation.
 - c. If Excised Tissue Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion equals No, proceed to Patients with Needle Localization Specimens which are not Amenable to Introperative Imaging.

8. Check Patients with Needle Localization Specimens which are Not Amenable to Intraoperative Imaging:
 - a. If Patients with Needle Localization Specimens which are Not Amenable to Intraoperative Imaging equals Yes, include in Reporting Met and Performance Exclusion.
 - b. Reporting Met and Performance Exclusion letter is represented in the Reporting Rate and Performance Rate in the Sample Calculation listed at the end of this document. Letter b equals 1 procedure in the Sample Calculation.
 - c. If Patients with Needle Localization Specimens which are Not Amenable to Intraoperative Imaging equals No, proceed to Excised Tissue not Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion Reason Not Given.

9. Check Excised Tissue not Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion Reason Not Given:
 - a. If Excised Tissue not Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion. Reason Not Given equals Yes, include in the Reporting Met and Performance Not Met.
 - b. Reporting Met and Performance Not Met letter is represented in the Reporting Rate in the Sample Calculation listed at the end of this document. Letter c equals 2 procedures in the Sample Calculation.
 - c. If Excised Tissue not Evaluated by Imaging Intraoperatively to Confirm Successful Inclusion of Targeted Lesion Reason Not Given equals No, proceed to Reporting Not Met.

10. Check Reporting Not Met
 - a. If Reporting Not Met equals No, Quality Data Code or equivalent not reported. 1 procedure has been subtracted from reporting numerator in the sample calculation.

SAMPLE CALCULATIONS:

Reporting Rate=

$$\frac{\text{Performance Met (a=4 procedures)} + \text{Performance Exclusion (b=1 procedure)} + \text{Performance Not Met (c=2 procedures)}}{\text{Eligible Population / Denominator (d=8 procedures)}} = \frac{7 \text{ procedures}}{8 \text{ procedures}} = 87.50\%$$

Performance Rate=

$$\frac{\text{Performance Met (a=4 procedures)}}{\text{Reporting Numerator (7 procedures) - Performance Exclusion (b=1 procedure)}} = \frac{4 \text{ procedures}}{6 \text{ procedures}} = 66.67\%$$
