## 2015 Physician Quality Reporting System (PQRS) Quality-Data Code (QDC) Categories

Select a quality-data code (QDC) choice corresponding to the quality action performed by the TIN/NPI as noted in the measure specifications. An “&” sign between QDCs notes that more than one QDC is required. The QDCs that vary by reporting mechanism are listed separately for each measure in which this applies. For reporting options available for each measure, refer to the *2015 Physician Quality Reporting System (PQRS) Measures List*. TIN/NPIs who only report QDCs listed in the “Performance Not Met” category for a measure will result in a performance rate of 0%. Measures with a 0% performance rate will not count towards the criteria for satisfactory reporting. The *2015 Physician Quality Reporting System (PQRS) Measure Specifications Manual for Claims and Registry Reporting of Individual Measures* and the *2015 Physician Quality Reporting System (PQRS) Measures Groups Specifications Manual* should be referenced for full understanding of the measures.

| PQRS Number | NQF Number | Measure Title  | Meets Performance   | Medical Performance Exclusion | Patient Performance Exclusion | System Performance Exclusion | Other Performance Exclusion     | Performance Not Met        |
|-------------|------------|--|---|-------------------------------|-------------------------------|------------------------------|---------------------------------|----------------------------|
| 1           | 0059       | Diabetes: Hemoglobin A1c Poor Control  | 3046F<br>3046F-8P<br>(NOTE: A lower performance rate is desirable for this measure) | N/A                           | N/A                           | N/A                          | No Report                       | 3044F<br>3045F             |
