I. Introduction

In September 2017, the Centers for Medicare & Medicaid Services (CMS) made the 2016 Physician Quality Reporting System (PQRS) feedback reports available to all eligible report recipients through the CMS Enterprise Portal at https://portal.cms.gov.

PQRS is a quality reporting program that encourages individual eligible professionals (EPs), group practices, and ACOs (Accountable Care Organizations) participating via the group practice reporting option (GPRO), referred to as PQRS group practices, to report information on the quality of care to Medicare beneficiaries. PQRS gives participating EPs, PQRS group practices, and ACOs the opportunity to assess the quality of care they provide to their patients, which helps ensure that patients get the correct care at the right time.

By reporting on PQRS quality measures, individual EPs, PQRS group practices, and ACOs can also quantify how often they are meeting a particular quality metric. The program applies a downward payment adjustment to individual EPs, PQRS group practices, and ACOs who do not satisfactorily report data on quality measures for Medicare Part B Physician Fee Schedule (Medicare PFS) covered professional services in 2016. Those who report satisfactorily for the 2016 program year will avoid the 2018 PQRS downward payment adjustment.

There are two types of 2016 PQRS feedback reports available:

- **PQRS Payment Adjustment Feedback Report**
  The PQRS Payment Adjustment Feedback Report provides payment adjustment information at the Medicare Taxpayer Identification Number (TIN) level, with individual-level reporting by National Provider Identifier (NPI), for each EP who reported quality measures data under the TIN for services furnished during the reporting period (January 1, 2016 - December 31, 2016).

- **PQRS Payment Adjustment Measure Performance Detail Report**
  The PQRS Payment Adjustment Measure Performance Detail Report provides NPI-level performance information for an EP who reported applicable quality measures data during the reporting period (January 1, 2016 - December 31, 2016).

For more information on PQRS or the payment adjustment, visit the PQRS webpage at: https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/index.html.

A User Guide for the 2016 PQRS feedback reports is also available to assist individual EPs and PQRS group practices with understanding and interpreting the 2016 PQRS feedback reports. The User Guide is available on the PQRS Analysis and Payment webpage at https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/PQRS/AnalysisAndPayment.html.

II. Getting Started

Authorized representatives of individual EPs and PQRS group practices can access the 2016 PQRS feedback reports at https://portal.cms.gov using an Enterprise Identity Management (EIDM) account with one of the following roles in the Physician Quality and Value Programs application:

For a group with 2 or more EPs (TIN with 2 or more NPIs that bill under the TIN):
- Security Official
- Group Representative

For an individual EP (TIN with only 1 NPI that bill under the TIN):
- Individual Practitioner
- Individual Practitioner Representative

Having an EIDM account with one of these roles will also allow you to access the Annual Quality and Resource Use Reports (QRURs).

Instructions for obtaining an EIDM account are available at: https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeedbackProgram/Obtain-2013-QRUR.html

- If a physician solo practitioner representative has an existing EIDM account, but not one of the individual-specific roles listed above, then ensure that the account is still active and add a role-specific Physician Quality and Value Programs role to the individual’s existing EIDM account. To check if the EIDM account is still active, please contact the QualityNet Help Desk.
- If a group does not have an authorized representative with an EIDM account, then one person representing the group must sign up for an EIDM account with the Security Official role.
- If a group has a representative with an existing EIDM account, but not one of the group-specific roles listed above, then ensure that the account is still active and add a role-specific Physician Quality and Value Programs role to that person’s existing EIDM account. To check if the EIDM account is still active, please contact the QualityNet Help Desk.

If you have questions about the 2016 PQRS feedback report or need assistance accessing any of the reports, please contact the QualityNet Help Desk by phone at 866-288-8912. Normal business hours are Monday-Friday from 8:00 a.m. to 8:00 p.m. Eastern Time.
For additional assistance regarding EIDM or the data and the information contained in the PQRS feedback reports, contact the QualityNet Help Desk at 1-866-288-8912; TTY (877) 715-6222 from 8:00 a.m. to 8:00 p.m. Eastern Time, Monday through Friday, or via email at qnetsupport@hcqis.org.

For retrieving a forgotten password, navigate to https://portal.cms.gov, and select the Forgot your Password link located in the CMS Enterprise Portal screen.

For questions about how to access your 2016 PQRS feedback reports or to provide feedback to CMS, please contact the Physician Value Help Desk:
- Monday – Friday: 8:00 a.m. – 8:00 p.m. Eastern Time
- Phone: (888) 734-6433 (option 3)
- Email: pvhelpdesk@cms.hhs.gov

### 2016 PHYSICIAN QUALITY REPORTING SYSTEM (PQRS) PAYMENT ADJUSTMENT FEEDBACK REPORT FOR PROGRAM YEAR 2016

**ABOUT THE 2016 PQRS PAYMENT ADJUSTMENT FEEDBACK REPORT**

Under the Physician Quality Reporting System (PQRS), program year 2016 was the reporting period to determine subjectivity to the 2016 PQRS downward payment adjustment, as well as to avoid the 2018 automatic downward adjustment and qualify for adjustments based on performance under the Value-Based Payment Modifier.

Eligible professionals (EPs) who were part of a Shared Savings Program (SSP) Accountable Care Organization (ACO) participating Tax Identification Number (TIN) during the Program Year (PY) 2015 may have reported quality data outside their ACO for the 2016 special secondary reporting period, because their ACO failed to report on their behalf for PY 2015 PQRS to avoid the 2017 PQRS Payment Adjustment.

This report provides payment adjustment information at the Medicare TIN level, with individual-level reporting by National Provider Identifier (NPI) for each EP who reported quality measures under the TIN for services furnished during the PY 2016 reporting period (January 1, 2016—December 31, 2016).

Information on how to avoid the 2017 PQRS payment adjustment can be found at: [https://www.cms.gov/Medicare/Medicare-Part-44-Payment-Adjustments-and-Carve-Outs/Payment-Adjustment-Information.html](https://www.cms.gov/Medicare/Medicare-Part-44-Payment-Adjustments-and-Carve-Outs/Payment-Adjustment-Information.html).

**ABOUT ICD-10**

CMS examined impact to quality measures and has determined that the International Classification of Diseases (ICD)-10-CM and ICD-10-PCS code updates will impact CMS’s ability to process data reported on certain quality measures for the 4th quarter of CY 2016. Therefore, CMS will not apply the 2016 PQRS payment adjustments to any EP or group practice that fail to satisfactorily report for CY 2016 solely as a result of this impact of ICD-10 code updates on quality data reported for the 4th quarter of CY 2016. Information and frequently asked questions (FAQs) about the ICD-10-CM code updates that impact PQRS can be found at [https://www.cms.gov/Medicare/Medicare-Part-44-Payment-Adjustments-and-Carve-Outs/ICD_10_Section.html](https://www.cms.gov/Medicare/Medicare-Part-44-Payment-Adjustments-and-Carve-Outs/ICD_10_Section.html).

**Please Note:** Payment Adjustment indicator will only reflect on this report and not on the “2016 PQRS Payment Adjustment Measure Performance Detail Report”.

**ABOUT POLICY CHANGE**

Except for the Adjustment Summary section, the contents of this report are based on the PQRS policies set forth in current Medicare Payment Advisory Commission (MedPAC), Statute, and/ or Final Rule. These policies are in process to be updated with 2016 data, which is scheduled for release in Fall 2017.
