This presentation will discuss the definition of value-based care, its core principle of patient and clinician relationships, and key support tools.

### Target Audience

This activity is designed for physicians and other health care professionals.

### Learning Objective

By the end of this presentation, learners will be able to recognize the definition of value-based care, its core principle of patient and clinician relationships, and key support tools.

### Participation

Register for the webinar, participate in the webinar, and access and complete the assessment and evaluation.

### Speaker Bios & Disclosures (alphabetical by last name)

No one in a position to control the content of this activity has anything to disclose. The planners/ developers of this activity have signed a disclosure statement indicating that he/she has no relevant financial interests. This activity was developed without commercial support.

**Terrence O'Malley, MD, presenter**, is an internist geriatrician at the Massachusetts General Hospital, where he completed Residency, and now provides clinical care, supervises trainees, and conducts research on improving transitions of care and the exchange of clinical information at transitions. Within Partners HealthCare System (PHS), an integrated network and Pioneer Accountable Care Organization (ACO), Dr. O'Malley co-chairs the Clinical Transitions Program and is on the Steering Committees for Palliative Care, Readmissions, and Quality Measurement.

Formerly, Dr. O'Malley was the Medical Director of a large primary care practice, a not for profit home health agency, and the Medical Director of Non-Acute Care Services Partners. He is currently Medical Director at two skilled nursing facilities (SNFs) and has an active SNF based clinical practice.

Dr. Terrence O'Malley has nothing to disclose.

**William Russell, MD, presenter**, is Chief Medical Information Officer (CMIO) of ChenMed, a primary care practice focused on Medicare Advantage persons. He has held this role since 2014, and served as ChenMed's Medical Director for Virginia in 2013. Dr. Russell served as a Technical Expert for the Transitions of Care Challenge grants on behalf of the Office of the National Coordinator (ONC) in 2011 and 2012.

Dr. Russell is a Geriatrician, Informaticist with extensive experience in interoperability, clinical models of care and enterprise wide clinical automation.

Dr. William Russell has nothing to disclose.
