

2014 Individual Eligible Professional Measures Available for Preview

If you are an Individual Eligible Professional (EP) and reported any of the following 2014 PQRS measures via claims, your performance scores will be publicly reported on Physician Compare in late 2015. Starting on October 5, 2015,¹ EPs will have a 30-day preview period to view their data as it will appear on Physician Compare. The secured measure preview will be facilitated through the PQRS portal—Provider Quality Information Portal (PQIP). For more information on previewing your quality measures, visit the [Physician Compare Initiative page](#).

PQRS Number	Measure Title

46	Medication Reconciliation
Heart Disease	
204	Use of Aspirin or Another Antithrombotic
Preventive Care: General Health	
128	Body Mass Index (BMI) Screening and Follow-Up
226	Tobacco Use: Screening and Cessation Intervention
317	Screening for High Blood Pressure and Follow-Up Documented
134	Screening for Clinical Depression and Follow-Up Plan

Please note, the 2014 EHR data will not be publicly reported on Physician Compare because CMS was unable to determine the accuracy of these data. In addition, the 2014 registry data will not be publicly reported on Physician Compare because these data do not meet the public reporting standards. For more information, visit the [Physician Compare Initiative page](#).
