If your group practice reported any of these measures, the performance score will be publicly reported on Physician Compare in late 2015. Starting on October 5, 2015, all group practices with measure data will have a 30-day preview period to view their data as it will appear on Physician Compare. The secured measure preview will be facilitated through the PQRS portal—Provider Quality Information Portal (PQIP). For more information on previewing your group practice measures, visit the [Physician Compare Initiative page](#).

2014 registry data will not be publicly reported on Physician Compare because these data do not meet the public reporting standards. For more information, visit the [Physician Compare Initiative page](#).

2014 EHR data will not be publicly reported on Physician Compare because CMS was unable to determine the accuracy of these data. For more information, visit the [Physician Compare Initiative page](#).

Physician Compare is expanding public reporting of quality measures over the next several years. To learn more, visit the [Physician Compare Initiative page](#).

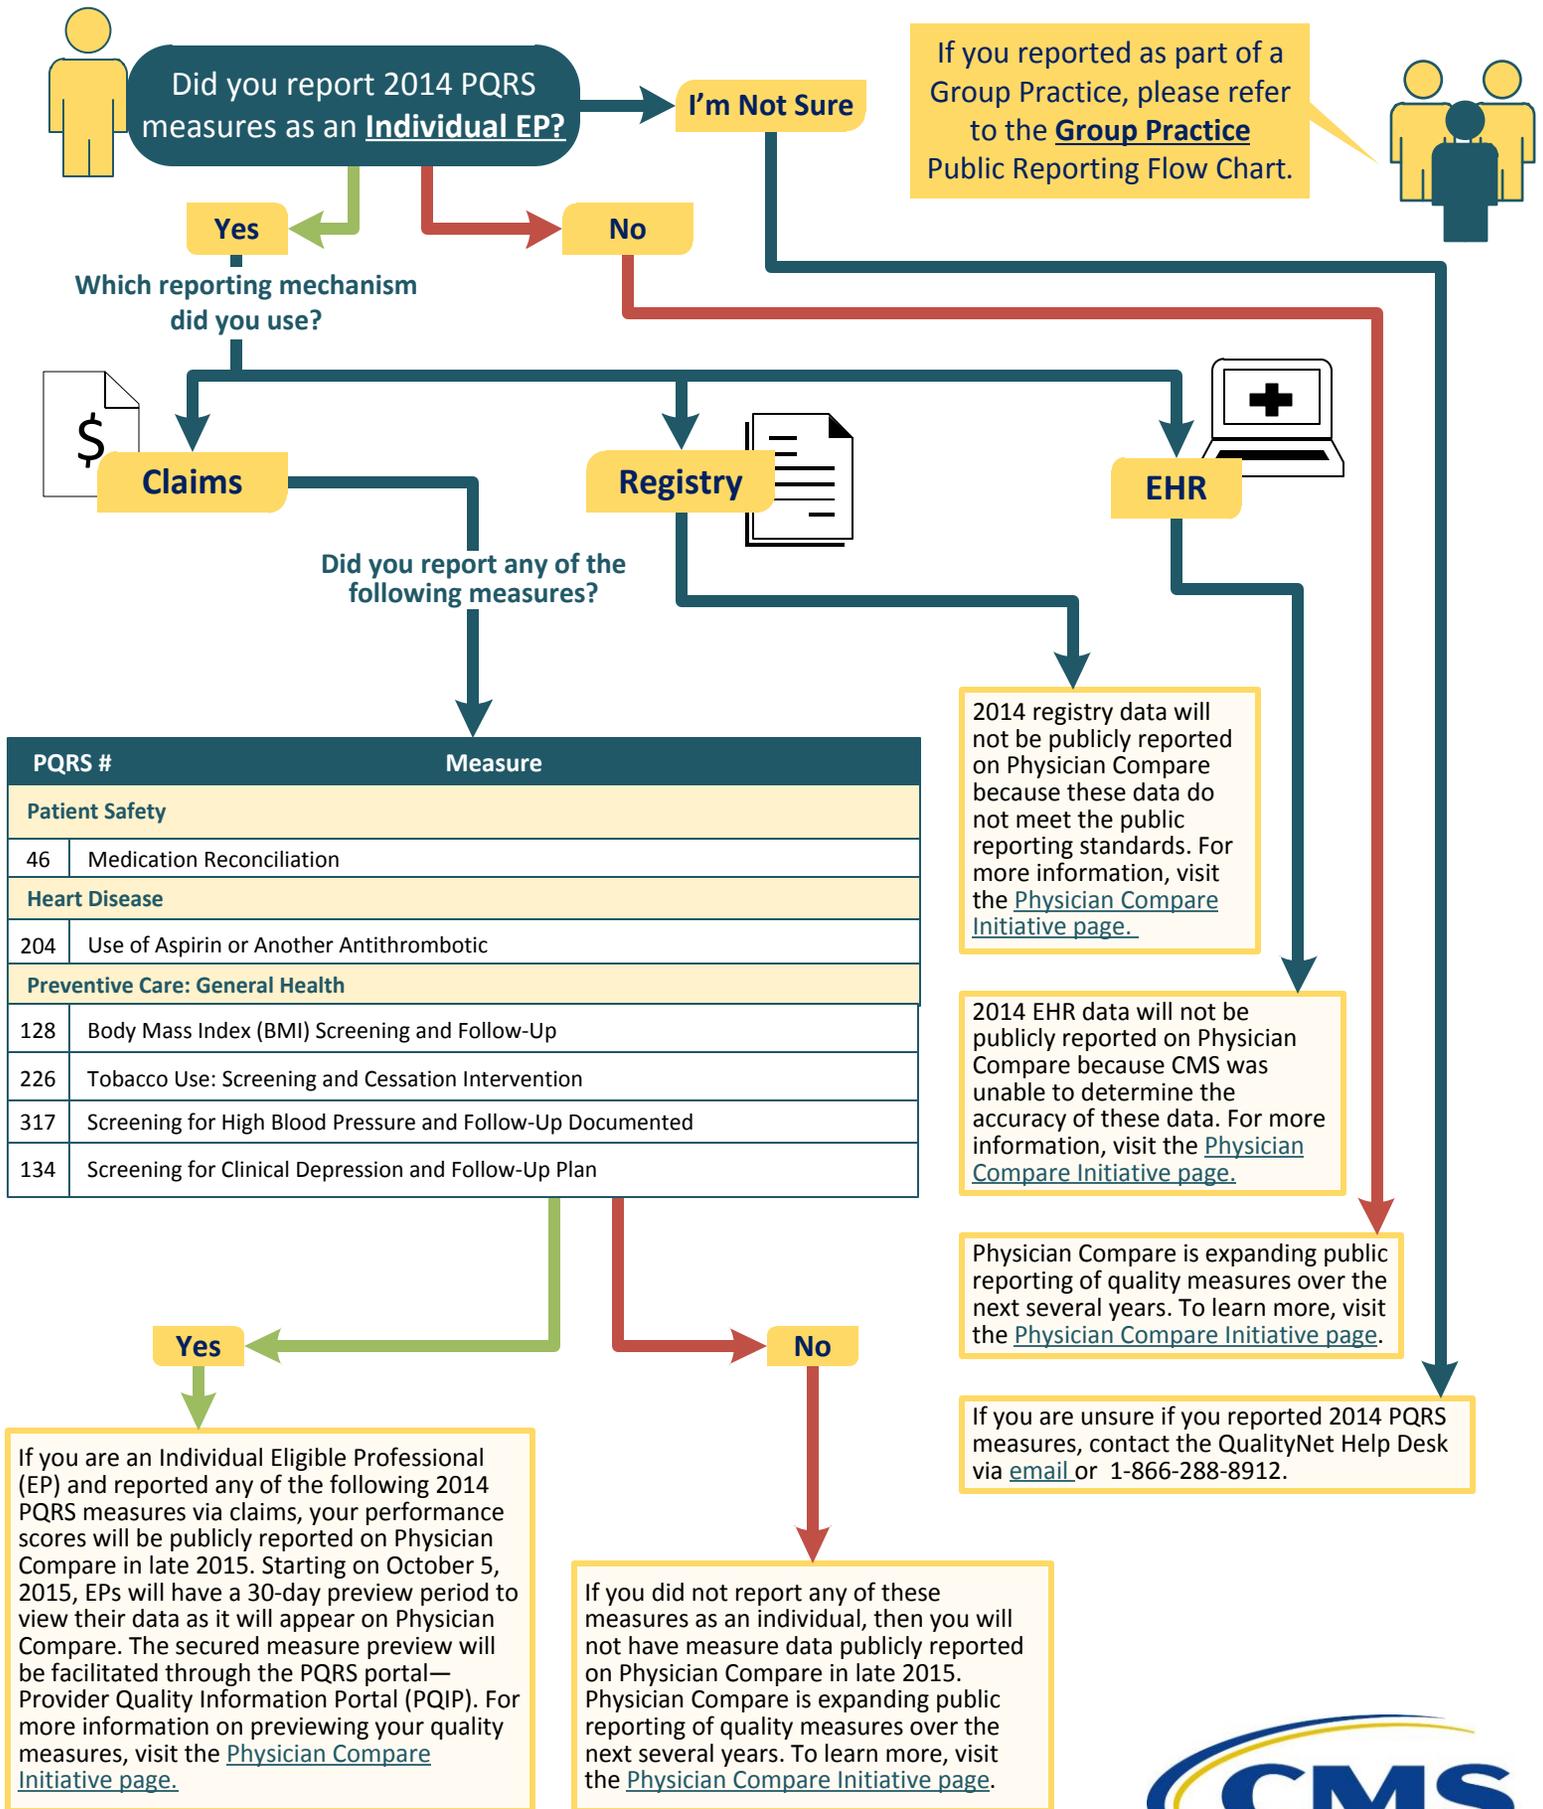

If you are unsure if you reported 2014 PQRS measures, contact the QualityNet Help Desk via [email](#) or 1-866-288-8912.

If your group practice did not report any of these measures, then you will not have measure data publicly reported on Physician Compare in late 2015. Physician Compare is expanding public reporting of quality measures over the next several years. To learn more, visit the [Physician Compare Initiative page](#).

If you have any questions, please contact the Physician Compare team:
