This guide will cover how to review and affirm data submitted by applicable manufacturers and applicable group purchasing organizations (GPOs), hereafter collectively referred to as reporting entities. It also covers how to initiate and withdraw disputes on submitted data.

2. Select a covered recipient from “Choose a Covered Recipient” drop-down menu whose records are to be reviewed. To see the summary of payment records for the covered recipient chosen, select the “Show Summary” button. This will bring up the Summary of Payment Records. Only records available for review and dispute are included in the Summary of Payment records. All third party payments are counted in the Summary of Payments for general payment category.

3. Select the “Show Records” button to navigate to the “Review and Dispute” page for the covered recipient. The “Review and Dispute” page displays all available records for review.
   - Users can use available filters on the page to narrow search results as desired.

ii. **Deleted and In Progress Records:** This tab displays all records that were available for review and dispute in the current calendar year but were deleted or are in the process of being edited by the reporting entity. These records are shown as information only and review and dispute actions are not allowed for records on this tab.
