

**Are You Ready To Get In The Game?**

**Get Covered.**

**Get in the Game.**

**Nothing should stand in the way of your sports participation-especially not having health insurance.**

**The Lummi Tribal Health Center knows that It must do everything it can to make sure the children in our community are healthy. Health insurance coverage will help get our children in the game.**

**Our children will get exercise and have fun whether they are playing football, volleyball, basketball or jumping rope - and they'll stay protected on and off the field long after the sports season is over.**

**Ask me how to enroll your child in a Children's Health Insurance Program today.**

**Call: Robin Finkbonner - Children's Health Insurance Coordinator or Denise Kelly - DSHS Financial Specialist, both are located at the Lummi Tribal Health Center - 384-0464**
