

WE ARE PULLING FOR OUR CHILDREN'S HEALTH CARE

Lummi Tribal Health Center

Dear Families,

President Obama signed legislation in 2009 that added new funding for the Medicaid and Children's Health Insurance Programs, with a special focus on **ALL** eligible children having health insurance.

Children who have health insurance have a better chance of being healthy. They are less likely to miss school because they are sick and kids who are feeling healthy have an easier time focusing on their studies.

Children's health insurance includes:

Doctor visits	Prescription drugs
Emergency Care	Vision
Hospitalizations	Hearing
Vaccinations	Dental

What to do:

Check...to see what health insurance is available for your child. Call Lummi Tribal Health Clinic at 384-0464, Ext.2245. Thousands of families are eligible for health insurance coverage and don't know it. Even if you've been turned down in the past, your child may be eligible now.

Protect...your child with regular check-ups, dental care, immunizations and prescription drugs, which are available to children enrolled in a children's health insurance program. You'll also gain peace of mind knowing you have coverage when you need it.

Expect...to re-enroll every year. Keeping your coverage means keeping your child healthy, but you have to renew yearly. Be ready to renew when your State office contacts you.

To see if you are eligible, call **Robin Finkbonner**, Child Health Insurance Enrollment Coordinator, who collaborates with the State DSHS Financial Specialist, Denise Kelly. Please call Lummi Tribal Health Center, **384-0464 Ext 2245**.
