

Native American Health Center's CHIPRA Enrollment & Retention Program

Native American Health Center provides many health care services necessary to keep your children healthy. If your children do not have health insurance, please consider enrolling them in a children's health insurance program through our clinic's CHIPRA Outreach Team.

**Children's health insurance covers urgent
health care needs including:**

***Regular Check-Ups
*Prescription Drugs**

***Dental Care
*Immunizations**

**If you or your child can show proof of tribal enrollment, you may not have to pay CA's
CHIP premiums or co-payments.**
