

Medicare Preventive Services Bookmark

CMS has developed the “Medicare Preventive Services Bookmark” as a useful provider education and outreach tool to promote and encourage utilization of Medicare-covered preventive services. The bookmark lists the preventive services and screenings covered by Medicare and provides a message that encourages health care professionals to talk with their Medicare patients about these preventive services and encourage them to take advantage of these potentially life saving benefits. This product is appropriate for distribution at health care professional conferences, provider outreach and education activities, and other appropriate types of provider/supplier events. To order the bookmark, free of charge, from the Medicare Learning Network, go to http://cms.meridianksi.com/kc/main/kc_frame.asp?kc_ident=kc0001&loc=5 or to view, download, or print the bookmark, go to the MLN Publications web page at: <http://www.cms.hhs.gov/MLNProducts/MPUB/list.asp> on the CMS website.
