Next Generation Accountable Care Organization (NGACO) Year Three Benefit Enhancements

MLN Matters Number: MM10044 Revised
Related CR Release Date: November 22, 2017
Effective Date: January 1, 2018
Related CR Transmittal Number: R187DEMO
Implementation Date: January 2, 2018

Note: This article was revised on August 24, 2018, to provide a link to MM10824 which (based on CR 10824) provides instruction on implementing one new Benefit Enhancement for program year three of the NGACO Model. All other information is unchanged.

PROVIDER TYPES AFFECTED

This MLN Matters® Article is intended for providers who are participating in Next Generation Accountable Care Organizations (NGACOs) and submitting claims to Medicare Administrative Contractors (MACs) for services provided to Medicare beneficiaries.

PROVIDER ACTION NEEDED

Change Request (CR) 10044 provides instruction to MACs to implement two new benefit enhancements for performance year three (calendar year 2018) of the NGACO Model. MACs will process and pay claims for Asynchronous Telehealth and Post-Discharge Home Visit Waiver services when those services meet the appropriate payment requirements as outlined in CR10044. Make sure your billing staff is aware of these changes.

BACKGROUND

The aim of the NGACO Model is to improve the quality of care, population health outcomes, and patient experience for the beneficiaries who choose traditional Medicare Fee-for-Service (FFS) through greater alignment of financial incentives and greater access to tools that may aid beneficiaries and providers in achieving better health at lower costs.

In order to emphasize high-value services and support the ability of ACOs to manage the care of beneficiaries, the Centers for Medicare & Medicaid Services (CMS) is issuing the authority under Section 1115A of the Social Security Act (the Act) (Section 3021 of the Affordable Care Act) to conditionally waive certain Medicare payment requirements as part of the NGACO Model.
Asynchronous Telehealth

CMS is expanding the current telehealth waiver to include asynchronous (also known as “store-and-forward”) telehealth in the specialties of teledermatology and teleophthalmology. Asynchronous telehealth includes the transmission of recorded health history (for example, retinal scanning and digital images) through a secure electronic communications system to a practitioner, usually a specialist, who uses the information to evaluate the case or render a service outside of a real-time interaction. Asynchronous telecommunications system in single media format does not include telephone calls, images transmitted via facsimile machines, and text messages without visualization of the patient (electronic mail). Photographs must be specific to the patients’ condition and adequate for rendering or confirming a diagnosis or treatment plan.

Payment will be permitted for telemedicine when asynchronous telehealth in single or multimedia formats, is used as a substitute for an interactive telecommunications system for dermatology and ophthalmology services. Distant site practitioners will bill for these new services using new codes, and the distant site practitioner must be an NGACO Participant or Preferred Provider.

Asynchronous Telehealth Based on Intra-Service + 5 Minutes Post-Service Time

- **Code 1:** G9868 – Receipt and analysis of remote, asynchronous images for dermatologic and/or ophthalmologic evaluation, for use under the Next Generation ACO model, less than 10 minutes.

- **Code 2:** G9869 – Receipt and analysis of remote, asynchronous images for dermatologic and/or ophthalmologic evaluation, for use under the Next Generation ACO model, 10-20 minutes.

- **Code 3:** G9870 – Receipt and analysis of remote, asynchronous images for dermatologic and/or ophthalmologic evaluation, for use under the Next Generation ACO model, 20 or more minutes.

**ADDITIONAL INFORMATION**

If you have questions, your MACs may have more information. Find their website at http://go.cms.gov/MAC-website-list.
