PROVIDER TYPES AFFECTED

This MLN Matters Article is intended for hospitals billing Medicare Administrative Contractors (MACs) for inpatient services provided to Medicare beneficiaries enrolled in a Medicare Advantage (MA) plan.

WHAT YOU NEED TO KNOW

Change Request (CR) 10238 instructs MACs to allow the Common Working File (CWF) to set edit 5233 on inpatient information only claims billed with condition codes 04 and 30 for Investigational Device Exemption (IDE) Studies and Clinical Studies Approved Under Coverage with Evidence Development (CED), which will in turn allow the Fiscal Intermediary Standard System (FISS) to zero out payment. CR 10238 contains no new policy. It improves the implementation of existing Medicare payment policies.

BACKGROUND

The Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1985, (Public Law: 99-272), provides for an additional payment to an urban hospital of 100 or more beds that serves a disproportionate share of low-income patients. Part of the calculation used to determine whether or not a hospital is eligible for Medicare Disproportionate Share Hospital (DSH) add-on payments is based on the percentage of days for which the beneficiary was entitled to Medicare Part A and received Supplemental Security Income (SSI) payments from the Social Security
The Centers for Medicare & Medicaid Services (CMS) uses claims data to calculate a hospital’s percentage of total Medicare days for which Medicare beneficiaries were simultaneously entitled to both SSI and Medicare. In order for MA enrolled inpatient days to be included in this Medicare/SSI fraction, the hospital must submit an informational only bill (Type of Bill (TOB) 11X) which includes Condition Code 04 to their MAC.

CMS was notified that a CWF edit that is required to prevent payment on information only claims for MA beneficiaries for IDE studies and Clinical Studies Approved Under CED, which should be paid by the Medicare Advantage Plan, is bypassed for claims billed with condition code (CC) 30, thereby causing a Medicare Fee-for-Service (FFS) payment in error.

To correct prior claims, hospitals should note that their MAC will reprocess inpatient information only claims with a payment greater than $0, condition codes 04 and 30, one of the approved IDE or CED study numbers listed in the spreadsheet attachment to CR 10238 and an admission/from date on or after April 1, 2015, and before March 31, 2018, within 90 days of the implementation date of CR 10238.
