PROVIDER ACTION NEEDED

Change Request (CR) 10318 constitutes a maintenance update of the International Code of Diseases, Tenth Revision (ICD-10) conversions and other coding updates specific to National Coverage Determinations (NCDs). These NCD coding changes are the result of newly available codes, coding revisions to NCDs released separately, or coding feedback received. Please follow the link below for the NCD spreadsheets included with this CR:

<https://www.cms.gov/Medicare/Coverage/DeterminationProcess/downloads/CR10318.zip>

BACKGROUND

Previous NCD coding changes appear in ICD-10 quarterly updates available at

<https://www.cms.gov/Medicare/Coverage/CoverageGenInfo/ICD10.html>, along with other CRs implementing new policy NCDs. Edits to ICD-10 and other coding updates specific to NCDs will

be included in subsequent quarterly releases and individual CRs as appropriate. No policy-related changes are included with the ICD-10 quarterly updates. Any policy-related changes to NCDs continue to be implemented via the current, long-standing NCD process.

Coding (as well as payment) is a separate and distinct area of the Medicare Program from coverage policy/criteria. Revisions to codes within an NCD are carefully and thoroughly reviewed and vetted by the Centers for Medicare & Medicaid Services and are not intended to change the original intent of the NCD. The exception to this is when coding revisions are released as official implementation of new or reconsidered NCD policy following a formal national coverage analysis.

NOTE: The translations from ICD-9 to ICD-10 are not consistent one-to-one matches, nor are all ICD-10 codes appearing in a complete General Equivalence Mappings (GEMs) mapping guide or other mapping guides appropriate when reviewed against individual NCD policies. In addition, for those policies that expressly allow MAC discretion, there may be changes to those NCDs based on current review of those NCDs against ICD-10 coding. For these reasons, there may be certain ICD-9 codes that were once considered appropriate prior to ICD-10 implementation that are no longer considered acceptable.

CR10318 makes coding and clarifying adjustments to the following NCDs:

1. NCD20.9 Artificial Hearts
2. NCD20.9.1 Ventricular Assist Devices (VADs)
3. NCD20.16 Cardiac Output Monitoring by Thoracic Electrical Bioimpedance (TEB)
4. NCD20.29 Hyperbaric Oxygen (HBO) Therapy
5. NCD20.30 Microvolt T-Wave Alternans (MTWA)

8. NCD80.2, 80.2.1, 80.3, 80.3.1 Photodynamic Therapy, OPT, Photosensitive Drugs, Verteporfin
