Re-released (new) product from the Medicare Learning Network® (MLN)

- ["Intensive Behavioral Therapy \(IBT\) for Obesity,"](#) Booklet, ICN 907800, Downloadable and Hard Copy.

MLN Matters® Number: MM8166

Related Change Request (CR) #: CR 8166

Related CR Release Date: March 8, 2013

Effective Date: April 1, 2013

Related CR Transmittal #: R1196OTN

Implementation Date: April 1, 2013

## Outpatient Therapy Functional Reporting Non-Compliance Alerts

### Provider Types Affected

---

This MLN Matters® Article is intended for physicians and other providers who submit claims to Medicare contractors (carriers or Part B Medicare Administrative Contractors (B MACs)) for outpatient therapy services provided to Medicare beneficiaries.

### What You Need to Know

---

Change Request (CR) 8166, from which this article is taken implements alert messaging that conveys supplemental information regarding your claims for outpatient therapy from April 1, 2013, through June 30, 2013.

For therapy claims, with dates of service on and after January 1, 2013, processed on and after April 1, 2013, through June 30, 2013, you will receive a Remittance Advice (RA) message to alert you to include the applicable new functional limitation G-codes (from the list of 42) and the appropriate severity/complexity modifier (from the list of 7) on future specified therapy claims.

**Your carrier or B MAC will continue to process and adjudicate your therapy claims without the required G-codes and severity/complexity modifier.**

**Disclaimer**

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents. CPT only copyright 2011 American Medical Association.

Please note that no changes are being made to the policy on the claims-based data collection for outpatient therapy.

## Background

---

Section 3005(g) of the Middle Class Tax Relief and Jobs Creation Act of 2012 (MCTRJCA) (see <http://www.gpo.gov/fdys/pkg/CRPT-112hrpt399/pdf/CRPT-112hrpt399.pdf>) states that "*The Secretary of Health and Human Services shall implement, beginning on January 1, 2013, a claims-based data collection strategy that is designed to assist in reforming the Medicare payment system for outpatient therapy services subject to the limitations of Section 1833(g) of the Social Security Act (42 U.S.C. 1395l(g)). Such strategy shall be designed to provide for the collection of data on patient function during the course of therapy services in order to better understand patient condition and outcomes.*"

In response, CMS issued regulations on November 1, 2012 creating such a system. The Centers for Medicare & Medicaid Services (CMS) implemented a new claims-based data submission requirement for outpatient therapy services, effective January 1, 2013. It requires reporting with 42 new non-payable functional Healthcare Common Procedure Coding System (HCPCS) G-codes and 7 new severity/complexity modifiers on claims for Physical Therapy (PT), Occupational Therapy (OT), and Speech-Language Pathology (SLP) services. (You can find the associated MLN Matters® Article at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/MM8005.pdf> on the CMS website.

## Dates to Remember

---

A testing period is in effect from January 1, 2013, through June 30, 2013, during which claims without the required G-codes and severity/complexity modifier will be processed to allow providers to use the new coding requirements to assure that your systems work. During the testing period, your carrier or B MAC will continue to process and adjudicate your therapy claims without the required G-codes and severity/complexity modifier.

For therapy claims, with dates of service on and after January 1, 2013, processed on and after April 1, 2013, through June 30, 2013, contractors will send alerts reminding you to include the new functional limitation G-codes (from the list of 42) and the appropriate severity/complexity modifier (from the list of 7) on future specified therapy claims through a new RA message. The scenarios below illustrate what will be effective April 1, 2013.

### Effective April 1, 2013 to June 30, 2013

1. Effective for therapy claims with dates of service on or after January 1, 2013 and processed on and after April 1, 2013 through June 30, 2013, contractors will alert providers, who submit claims containing functional G-codes (G8978-G8999, G9158-G9176, and G9186) without a severity/complexity modifier (CH-CN), that functional G-codes require a severity/complexity modifier, and effective July 1, 2013, claims that do not include required functional reporting information will be returned or rejected. The following Claim Adjustment Reason Code (CARC) and RA Remark Code (RARC) will be used as the alert message:

- CARC 246 – "This non-payable code is for required reporting only" and

#### Disclaimer

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents. CPT only copyright 2011 American Medical Association.

- RARC N565- "Alert: This non-payable reporting code requires a modifier. Future claims containing this non-payable reporting code must include an appropriate modifier for the claim to be processed." when nonpayable HCPCS codes G8978 to G8999, G9158 to G9176, or G9186 are submitted without the appropriate modifier (CH – CN).
2. Effective for therapy claims with dates of service on or after January 1, 2013 and processed on and after April 1, 2013, through June 30, 2013, contractors will alert providers, who submit claims containing any of the following CPT evaluation/re-evaluation therapy codes 92506, 92597, 92607, 92608, 92610, 92611, 92612, 92614, 92616, 96105, 96125, 97001, 97002, 97003, 97004 without functional information, that these codes require functional G-code(s) and appropriate severity/complexity modifier (s), and effective July 1, 2013, claims that do not include required functional reporting information will be returned or rejected. The following CARC and RARC will be used as the alert message:
- CARC 246- "This non-payable code is for required reporting only." and
  - RARC N566- "Alert: This procedure code requires functional reporting. Future claims containing this procedure code must include an applicable non-payable code and appropriate modifiers for the claim to be processed." when CPT codes 92506, 92597, 92607, 92608, 92610, 92611, 92612, 92614, 92616, 96105, 97001, 97002, 97003, or 97004 are submitted without the nonpayable HCPCS codes G8978 to G8999, G9158 to G9176, or G9186 and the appropriate modifier (CH – CN).

#### Beginning July 1, 2013

- Beginning July 1, 2013, your claims will be returned or rejected using a new RA message when you do not comply with these reporting requirements.

**Note:** CR8166 is not applicable to institutional claims. There will be no alert messaging for institutional claims between April 1, 2013, and July 1, 2013.

### Additional Information

---

You can find more information about outpatient therapy functional reporting non-compliance alerts by going to CR 8166, located at <http://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/Downloads/R1196OTN.pdf> on the CMS website.

You may want to refer to CR 8005, Pub 100-04, Transmittal 2622, dated December 21, 2012, for detailed instructions on the implementation of the 42 nonpayable G-codes and 7 severity/complexity modifiers. You can find this at <http://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/Downloads/R2622CP.pdf> on the CMS website. ### Flu Activity Continues: Prompt Antiviral Treatment is Crucial for Seniors Sick with Flu

This season, flu activity started early and has placed a significant burden on people 65 years of age and older. In fact, so far this season, CDC has reported nearly four times more hospitalizations among people 65 and older than occurred during the entire 2011-2012 season. The CDC recommends that vaccination efforts continue as long as influenza viruses are circulating. People 65 years of age and older, as well as their close contacts and caregivers, should be vaccinated; and should seek medical treatment with antiviral drugs as soon as symptoms appear in order to reduce serious complications from flu infection, including hospitalizations, intensive care unit (ICU) admissions and deaths.

Note: Influenza vaccine and its administration is a Medicare Part B covered benefit. Influenza vaccines are NOT Part D-covered drugs.
