Skilled Nursing Facility Consolidated Billing as It Relates to Certain Types of Exceptionally Intensive Outpatient Hospital Services

Note: This article was updated on April 9, 2013, to reflect current Web addresses. All other information remains unchanged.

Provider Types Affected

Skilled Nursing Facilities (SNFs), physicians, suppliers, providers, and imaging centers

Clarification: The SNF CB requirement makes the SNF itself responsible for including on the Part A bill that it submits to its Medicare intermediary almost all of the services that a resident receives during the course of a Medicare-covered stay, except for a small number of services that are specifically excluded from this provision. These “excluded” services can be separately furnished to the resident and billed under Medicare Part B by a variety of outside sources. These sources can include other providers of service (such as hospitals), which would submit the bill for Part B services to their Medicare Intermediary, as well as practitioners and suppliers who would generally submit their bills to a Medicare Part B carrier. (Bills for certain types of items or equipment would be submitted by the supplier to their Medicare durable medical equipment regional carrier (DMERC)).

Provider Action Needed

This Special Edition describes SNF Consolidated Billing (CB) as it relates to certain types of exceptionally intensive outpatient hospital services, such as Magnetic Resonance Imaging (MRI) services, Computerized Axial Tomography (CT) Scans, and Radiation Therapy.

Background

When the SNF Prospective Payment System (PPS) was introduced in 1998, it changed not only the way SNFs are paid, but also the way SNFs must work with suppliers, physicians, and other practitioners. CB assigns the SNF itself the Medicare billing responsibility for virtually all of the services that the SNF's residents receive during the course of a covered Part A stay. Payment for this full range of services is included in the SNF PPS global per diem rate.

This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

The only exceptions are those services that are specifically excluded from this provision, which remain separately billable to Medicare Part B by the entity that actually furnished the service. For a detailed overview of SNF CB, including a section on services excluded from SNF CB, see MLN Matters Special Edition article SE0431 at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/se0431.pdf> on the CMS website.

The original CB legislation (Section 4432(b) of the Balanced Budget Act of 1997, P. L. 105-33 (BBA 1997)) specified a list of services at Section 1888(e)(2)(A)(ii) of the Social Security Act that were excluded from this provision. As with the inpatient hospital bundling requirement (Section 1862(a)(14) of the Social Security Act) on which it was modeled, the SNF CB provision excluded primarily the services of physicians and certain other practitioners.

Moreover, these services were excluded categorically, without regard to the specific setting in which they were furnished. This legislation did not authorize the Department of Health and Human Services (DHHS) to create additional categorical exclusions from CB administratively, thereby reserving this authority for the Congress itself. In fact, the Congress subsequently did enact a number of additional CB exclusions that applied uniformly to services furnished in both hospital and non-hospital settings, in Section 103 of the Balanced Budget Refinement Act of 1999 (BBRA 1999, P.L.106-113, Appendix F).

While the original CB legislation did not authorize DHHS to simply carve out entire categories of services from CB without regard to setting, it did define the SNF CB provision in terms of services furnished to a resident of a SNF, and provided a degree of administrative discretion in defining when a beneficiary is considered to be a SNF "resident" for this purpose.

Using this authority, the Centers for Medicare & Medicaid Services (CMS) identified several types of exceptionally intensive outpatient hospital services that were well beyond the general scope of SNF care plans. These services include:

- Emergency services;
- Cardiac catheterizations;
- Computerized Axial Tomography (CT) scans;
- Magnetic Resonance Imaging (MRI) services;
- Ambulatory surgery;
- Radiation therapy;
- Angiography; and
- Lymphatic and venous procedures.

CMS established that a beneficiary's receipt of such services in the outpatient hospital setting had the effect of temporarily suspending his/her status as a SNF resident for CB purposes, thus enabling the hospital to bill Part B separately for the services. (See Title 42 of the Code of Federal Regulations (42 CFR), Section 411.15(p)(3)(iii).) The underlying rationale for this exclusion was that these services were so far beyond the normal scope of SNF care as to require the intensity of the hospital setting in order to be furnished safely and effectively.

Disclaimer

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

In the legislative history that accompanied the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA, P.L. 108-173), Congress explicitly recognized that this administrative exclusion is specifically limited to "...certain outpatient services from a Medicare participating hospital or critical access hospital..." (emphasis added). (See the House Ways and Means Committee Report (H. Rep. No. 108-178, Part 2 at 209), and the Conference Report (H. Conf. Rep. No. 108-391 at 641)). This means that the exclusion does not encompass services that are furnished in other, non-hospital settings (such as freestanding clinics or ambulatory surgical centers).

As noted previously, in addition to the existing exclusion of certain types of intensive outpatient hospital services under the regulations at 42 CFR 411.15(p)(3)(iii), Congress has elected to exclude several categories of services from CB in the statute itself, at Sections 1888(e)(2)(A)(ii)-(iii) of the Social Security Act. Unlike the administrative exclusion discussed above, which applies solely to services furnished in the outpatient hospital setting, the statutorily excluded services are separately billable to Part B regardless of the setting (hospital versus freestanding) in which they are furnished.

For example, as amended by Section 103 of BBRA 1999, Section 1888(e)(2)(A)(iii)(II) of the Social Security Act excludes certain types of intensive chemotherapy services, regardless of whether they are furnished in a hospital or freestanding setting. Additional legislation would be required to expand the exemption of CT scans, MRI services, and radiation therapy to apply to services furnished in non-hospital settings.

Chemotherapy and its administration and radioisotopes and their administration are identified in the statute by HCPCS Code. These services are separately billable in all care settings, but the exclusion applies only to the codes specified in the Social Security Act and subsequent regulations. Therefore, other services given in conjunction with an excluded code (e.g., other pharmaceuticals, medical supplies, etc.) remain bundled and should be reimbursed by the SNF to the supplier.

Please note that the professional charge for the physician who performs/interprets the radiological procedure is NOT subject to CB. Since the physician service exclusion applies to the professional component of the diagnostic radiology service, the physician bills his/her service directly to the Medicare Part B carrier for reimbursement.

Additional Information

See MLN Matters Special Edition SE0431 for a detailed overview of SNF CB. This article lists services excluded from SNF CB and can be found at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/se0431.pdf> on the CMS website.

The Centers for Medicare and Medicaid Services (CMS) MLN Consolidated Billing Website can be found at <http://www.cms.gov/Medicare/Billing/SNFConsolidatedBilling/index.html/SNFConsolidatedBilling/> on the CMS website.

It includes the following relevant information:

- General SNF CB information;
- HCPCS codes that can be separately paid by the Medicare carrier (i.e., services not included in CB);
- Therapy codes that must be consolidated in a non-covered stay; and
