Note: CMS revised this article on May 7, 2019, to update sources of information regarding chiropractic services with additional references added to the Additional Information section of this article. We deleted several resource references that are no longer available. All other information remains the same.

Provider Types Affected

This Special Edition (SE) MLN Matters® article is for chiropractors submitting claims to Medicare Administrative Contractors (MACs) for chiropractic services provided to Medicare beneficiaries.

This article is part of a series of SE articles prepared for Chiropractors by CMS in response to the request for educational materials at the September 24, 2015 Special Open Door Forum titled: Improving Documentation of Chiropractic Services and includes updated information.

Provider Action Needed

The Centers for Medicare & Medicaid Services (CMS) is providing this article to help chiropractic billers find the correct resources for proper billing. This article is a comprehensive resource for chiropractic documentation and billing.

Be aware of these policies along with any Local Coverage Determinations (LCDs) for these services in your area that might limit circumstances under which Medicare pays for active/corrective chiropractic services.
Background

In 2018, the Comprehensive Error Testing Program (CERT) that measures improper payments in the Medicare Fee-for-Service program reported a 41 percent error rate for Chiropractic services. Most of those errors were due to insufficient documentation or documentation errors. This article provides a detailed list of informational and educational resources that can help chiropractors avoid these errors. Those resources are as follows:

Enrollment Information

The Medicare General Information, Eligibility, and Entitlement Manual, Chapter 5, includes Section 70.6. This section outlines the definition of a chiropractor, licensure and authorization to practice, and minimum standards.

The Medicare Benefit Policy Manual, Chapter 15, Covered Medical and Other Health Services, includes Section 40.4. This section explains that the opt out law does not define physician to include a chiropractor; therefore, a chiropractor may not opt out of Medicare and provide services under a private contract.

The Medicare Program Integrity Manual, Chapter 15 Medicare Enrollment, includes Section 15.4.4.11. This section explains that a physician must have legal authority to practice medicine by the State in which he or she performs such services to enroll in the Medicare Program and to retain Medicare billing privileges. A chiropractor who meets Medicare qualifications may enroll in the Medicare Program.
