### PROVIDER TYPES AFFECTED

---

This MLN Matters Article is intended for physicians, providers and suppliers billing Medicare Administrative Contractors (MACs) for services provided to Medicare beneficiaries.

### PROVIDER ACTION NEEDED

---

Change Request (CR) 10196, from which this article was developed, provides instructions for payment and edits for the Common Working File (CWF) and the Fiscal Intermediary Shared System (FISS) to include and update new or existing influenza virus vaccine codes. The influenza virus vaccine code set is updated on a quarterly basis. This update will include one new influenza virus vaccine code: 90756. Please make sure your billing staffs are aware of this update.

### BACKGROUND

---

Effective for claims processed with dates of service (DOS) on or after January 1, 2018, influenza virus vaccine code 90756 (Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use) will be payable by Medicare. This new code will be included on the 2018 Medicare Physician Fee Schedule Database file update and the annual Healthcare Common Procedure Coding System (HCPCS) update.

During the interim period of August 1, 2017, through December 31, 2017, MACs will use code Q2039 (Influenza virus vaccine, not otherwise specified) to handle bills for this new influenza virus vaccine product (Influenza virus vaccine, quadrivalent (ccIIV4)). Q2039 is already an active code.

The new influenza virus vaccine code 90756 will then be implemented with the January 2018 release for DOS on or after January 1, 2018.

Effective for dates of service on or after August 1, 2017, MACs will use the CMS Seasonal Influenza Vaccines Pricing website at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Part-B-Drugs/McrPartBDrugAvgSalesPrice/VaccinesPricing.html> to determine the payment rate for influenza virus vaccine code Q2039 and 90756.

Medicare will issue further instructions on how to handle claims using Q2039 for the new influenza virus vaccine product between August 1, 2017, and December 31, 2017. MACs will use existing processes to handle these claims.

The new influenza virus vaccine code (90756) is not retroactive to August 1, 2017. Claims will not be accepted for influenza virus vaccine code 90756 between the DOS August 1, 2017, and December 31, 2017. **If claims are received in January 2018 with code 90756 for DOS between August 1, 2017, and December 31, 2017, claims will be rejected or returned as unprocessable.**
