## *MMA - New Payment Allowance Percentages for DMERC Drugs*

**Note:** This article was updated on April 22, 2013, to reflect current Web addresses. All other information remains unchanged.

### Provider Types Affected

Suppliers and other providers who bill for certain drugs and biologicals not paid on a cost or prospective payment basis.

### Provider Action Needed

Affected providers and suppliers should note that this instruction adds a payment limit percentage for the drug Capecitabine (Xeloda).

### Background

Effective January 1, 2004, the payment limit allowance for J8520 (Capecitabine, 150 mg) and J8521 (Capecitabine, 500 mg) will be 90 percent of the April 1, 2003 Average Wholesale Price (AWP). While this change is effective for these codes as of January 1, 2004, Medicare does not plan to search their files to make any adjustment to claims already processed, unless the provider brings such claims to the attention of their DMERC or fiscal intermediary (FI).
