ambulatory surgical centers (ASCs), and for all institutional claims, but is **not required** for ambulance supplier claims.

GO – What You Need to Do

Be ready to use the updated codes on October 1, 2006. Please refer to the *Background* and *Additional Information* sections of this article for further details regarding this instruction.

Background

This instruction is a reminder that Medicare carriers, DMERCs, FIs, and RHHs will use the annual *International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM)* coding update effective for:

- Dates of service on or after October 1, 2006; and
- Discharges on or after October 1, 2006 for institutional providers

Effective for dates of service on and after October 1, 2004, CMS no longer provided a 90-day grace period for physicians, practitioners and suppliers to use in billing discontinued ICD-9-CM diagnosis codes on Medicare claims. The Health Insurance Portability and Accountability Act (HIPAA) requires that medical code sets be date-of-service compliant, and ICD-9-CM diagnosis codes are a medical code set (see the MLN Matters article related to CR3094, dated February 6, 2004, at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/MM3094.pdf> on the CMS website).
