

Revised errata sheets and downloadable versions (April 2007) of the Medicare Physician Guide: A Resource for Residents, Practicing Physicians, and Other Health Care Professionals and the Facilitator's Guide – Companion to Medicare Physician Guide: A Resource for Residents, Practicing Physicians, and Other Health Care Professionals have been posted on the CMS Medicare Learning Network. To access these publications, visit <http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/index.html> on the CMS website.

MLN Matters® Number: MM5347

Related Change Request (CR) #: 5347

Related CR Release Date: April 18, 2007

Effective Date: April 1, 2007

Related CR Transmittal #: R1221CP

Implementation Date: April 2, 2007

Common Working File (CWF) Duplicate Claim Edit for the Technical Component (TC) of Radiology and Pathology Laboratory Services Provided to Hospital Patients

Note: This article was updated on September 16, 2013, to add a reference to MM8399

(<http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNMattersArticles/downloads/MM8399.pdf>) which contains information about the changes to the claims processing systems to allow the TC of a pathology claim when there is a claim in history from the ordering/referring physician for the same Date of Service (DOS) as the TC of the pathology claim and when the place of service on the ordering/referring physician's claim for physician services is a non-hospital place of service.. All other information is the same.

Provider Types Affected

Radiology suppliers, physicians and non-physician practitioners billing Medicare carriers for the TC of **radiology** laboratory services provided to Medicare fee-for-service hospital inpatients. Also affected are independent laboratories billing Medicare carriers for the TC of **pathology** laboratory services provided to Medicare fee-for-service hospital patients.

Provider Action Needed

Effective April 1, 2007, CMS will install systems edits to prevent improper payments to radiology suppliers, physicians and non-physician practitioners for the TC of radiology laboratory services during an inpatient stay. The system edits will also apply to independent laboratories for the TC of pathology laboratory services

provided to beneficiaries during a covered inpatient hospital stay or provided on the same date of service as an outpatient service. This change applies to claims with dates of service on or after January 1, 2007, where the claim is received on or after April 1, 2007. Please be sure billing staff are aware of these changes.

Background

Current Medicare billing practices allow either the hospital or the supplier performing the technical component (TC) of physician pathology laboratory services to bill the carrier for these services. This policy has contributed to the Medicare program paying twice for the TC service, first through the Prospective Payment System (PPS) to the hospital and again to the supplier that bills the carrier, instead of the hospital, for the TC service.

Effective for claims received on or after April 1, 2007 for services on or after January 1, 2007, CMS will install systems edits to prevent additional improper payments to radiology suppliers, physicians and non-physician practitioners billing Medicare carriers for the TC of **radiology** laboratory services during an inpatient stay. The edits will also apply to independent laboratories for the TC of pathology services provided to beneficiaries during an inpatient stay or for the same date of service as an outpatient service.

Key Points

- Effective for claims received on or after April 1, 2007, Medicare will reject/deny a Part B TC or globally billed radiology service with a service date on or after January 1, 2007, that falls within the admission and discharge dates of a covered hospital inpatient stay. Such services will also be rejected/denied when they match with a date of service of a hospital inpatient previously processed by Medicare.
- Effective for claims received on or after April 1, 2007, Medicare will reject/deny reject a Part B TC or globally billed pathology service with a service date on or after January 1, 2007, that falls within the admission and discharge dates of a covered hospital inpatient stay when billed by a physician/supplier. Such services will also be rejected/denied when they match with a date of service of a hospital outpatient bill (bill types 13X and 85X0 previously processed by Medicare).
- If providers submit a TC of a radiology or pathology service with a service date that falls within the admission and discharge dates of a covered hospital inpatient stay the carrier will use Remittance Advice Reason Code 109 "Claim not covered by this payer/contractor." when denying a service line item.
- Where Medicare systems detect that a Part B TC or globally billed radiology or physician pathology service has been paid and Medicare subsequently receives a hospital inpatient bill for the same date of service, the Medicare carrier will adjust a

TC of a radiology or physician pathology service line item and recoup the payment made for that service from the physician/supplier. The Medicare carrier will also adjust a TC of a pathology service for an outpatient claim. The same Remittance Advice Reason Code of 109 will be used in such cases.

- Effective for claims received on or after April 1, 2007, the carrier will deny an incoming Part B TC or globally billed radiology or physician pathology service line item with a service date that falls outside the occurrence span code 74 (non-covered level of care) from and through dates plus one day on a posted hospital inpatient bill. Again, the carrier will use Remittance Advice Reason Code 109. In addition, the Medicare carrier will recoup payment made to the physician/supplier if a subsequent hospital inpatient bill is received for those same services.
- Carriers will not search their files to either retract payment or retroactively pay claims prior to the implementation of CR5347. However, they will adjust claims if they are brought to their attention.

Additional Information

If you have questions, please contact your Medicare fiscal intermediary (FI), carrier or A/B MAC at their toll-free number which may be found at <http://www.cms.gov/Research-Statistics-Data-and-Systems/Monitoring-Programs/provider-compliance-interactive-map/index.html> on the CMS website.

For complete details regarding this CR, please see the official instruction issued to your Medicare FI, Carrier or A/B MAC. That instruction may be viewed by going to <http://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/downloads/R1221CP.pdf> on the CMS website.

You may also want to review MLN Matters® article MM5468 (<http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNMattersArticles/downloads/MM5468.pdf>) that contains important information regarding qualifying independent laboratories continuing to bill Medicare for the TC of physician pathology services furnished to Medicare patients of a covered hospital stay during calendar year 2007.
