systems were fixed.

GO – What You Need to Do

You need not take any action as your Medicare contractor will take steps to adjust any claims affected and to reverse or stop any payment recovery actions. See the Background section for more details.

Background

Providers need to be aware that the Centers for Medicare & Medicaid Services (CMS) has identified an issue with processing outpatient, Part B, and DME claims for beneficiaries who are in a SNF, but whose Medicare coverage for the SNF stay has ended. In October of 2006 Change Request (CR) 4292 (Benefits Exhaust and No-Payment for Medicare FIs and SNFs) was implemented. CR4292 (see *Additional Information* section for the CMS website address of CR4292) mandated that providers submit ALL SNF non-pay claims after benefits were exhausted to allow CMS to track the beneficiary's benefit period.

Medicare system changes relating to CR4292 caused outpatient, Part B, and DME paid claims that overlap non-pay SNF claims to be rejected. **This is an error and your Medicare contractor will adjust claims or payment recovery actions resulting from this problem.** The CWF coding change to fix this problem was effective and in production on January 29, 2007 and CWF will provide a list of claims to the applicable contractors to allow for corrections and payment to be made to providers.

Key Points

CMS has directed Medicare contractors to correct any claims that were adjusted as a result of the problem with implementation of CR4292.

- Any providers whose claims were impacted will be paid any payment recovered to include any interest charged.
- Where the payment recovery has not occurred, the Medicare contractor will stop such action.
