**Physician Signature Requirements for Diagnostic Tests**

**Note:** This article was revised on February 6, 2009, to remove a parenthetical statement from the first paragraph of page 2 of this article. All other information remains the same.

**Provider Types Affected**

Physicians and other providers who bill Medicare contractors (carriers, fiscal intermediaries (FI), or Medicare Administrative Contractors (A/B MAC)) for diagnostic laboratory services provided to Medicare beneficiaries.

**What You Need to Know**

CR 6100, from which this article is taken, updates the *Medicare Benefit Policy Manual*, Chapter 15 (Covered Medical and Other Health Services), Section 80 (Requirements for Diagnostic X-Ray, Diagnostic Laboratory, and Other Diagnostic Tests) Subsection 80.6.1 (Definitions); to incorporate language previously contained in Section 15021 of the *Medicare Carriers Manual*, but inadvertently omitted when the *Medicare Benefit Policy Manual* was published.

Specifically, it notes that a physician’s signature is not required on orders for clinical diagnostic tests that are paid on the basis of the clinical laboratory fee schedule, the Medicare physician fee schedule, or for physician pathology services. While a physician order is not required to be signed, the physician must clearly document in the medical record his or her intent that the test be performed.

Make sure that your office, billing, and/or laboratory staffs are aware of this updated guidance regarding the signature requirement for diagnostic tests.
