## 2008 Reminder for Roster Billing and Centralized Billing for Influenza and Pneumococcal Vaccinations

**Note: This article was revised on January 18, 2018, to update Web addresses. All other information remains the same.**

### Provider Types Affected

Physicians, providers, and suppliers submitting claims to Medicare contractors (carriers, Fiscal Intermediaries (FIs), and/or Part A/B Medicare Administrative Contractors (A/B MACs)) for influenza and pneumococcal vaccinations provided to Medicare beneficiaries.

### Provider Action Needed

This article is based on Change Request (CR) 6121 which reminds the Medicare physician community of the requirements to correctly enroll in order to conduct Mass Immunization Roster Billing and Centralized Billing of Medicare for influenza and pneumococcal immunizations. Remember that centralized billers participation is limited to one year and such billers must reapply each year they wish to be a centralized biller. The yearly reapplication process is not required for Mass Immunizer Roster Billers.

### Background

The Centers for Medicare & Medicaid Services (CMS) is issuing Change Request (CR) 6121 as a reminder for Mass Immunization Roster Billing and Centralized Billing for Influenza and Pneumococcal vaccinations.

Mass immunizers are providers and suppliers who enroll in the Medicare program to offer the influenza vaccinations to a large number of individuals, and they must be properly licensed in the States in which they plan to operate influenza (flu) clinics.

#### Disclaimer

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

Enrollment for mass immunizers is ongoing and must be completed through the local A/B MAC or carrier. Mass immunizers submit their claims to the local Medicare contractor.

Centralized billers are mass immunizers who have applied to become centralized billers when they operate in at least three payment localities for which there are three different Medicare contractors processing claims. Individuals and entities must be properly licensed in the States in which they plan to operate influenza (flu) and/or pneumococcal clinics.

Providers who only offer influenza services:

- May enroll as one of two types of providers including a mass immunization roster biller (specialty provider type 73), or a Centralized Biller, and
- Must meet the guidelines for being either a mass immunizer or centralized biller.

Suppliers must enroll as a mass immunization roster biller (specialty provider type 73) with a carrier or A/B MAC to render influenza vaccination services to Medicare beneficiaries.

Mass immunization roster billers and centralized billers must enroll in the Medicare program even if mass influenza and/or pneumococcal immunizations are the only service being provided. They must:

- Accept assignment on both the vaccine and its administration,
- Bill only for influenza and/or pneumococcal vaccinations, and
- Submit claims using the roster billing process.

Participation as a centralized biller is limited to one year and must be renewed annually by contacting the CMS central office by June 1 to request participation for the upcoming year. Claims for centralized billers are processed by one Medicare specialty contractor regardless of the locality where the service was rendered. Centralized billers submit their claims to the designated specialty contractor.

Providers and suppliers must enroll using the appropriate CMS 855 provider enrollment form (See <http://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/MedicareProviderSupEnroll/index.html> on the CMS website).

Applications are available from the local contractors. Refer to the Medicare Claims Processing Manual, Chapter 18, Sections 10-10.5 at <http://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/clm104c18.pdf> on the CMS website for more information on billing requirements.

#### Disclaimer

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

**Note:** Medicare Part B pays 100 percent for pneumococcal vaccines, influenza virus vaccines, and their administration. The Part B deductible and coinsurance do not apply for influenza virus and pneumococcal vaccine.

**Remember the following regarding the influenza vaccine:**

- Medicare allows one influenza (flu) vaccination per year;
- Medicare does not require for coverage purposes that a doctor of medicine or osteopathy order the influenza vaccine and its administration; and
- The beneficiary may receive the influenza vaccine upon request without a physician's order and without physician supervision.

**Remember the following with regard to the pneumococcal vaccine,** effective for services furnished on or after July 1, 2000:

- Medicare does not require for coverage purposes, that a doctor of medicine or osteopathy order the pneumococcal vaccine and its administration, and
- The beneficiary may receive the vaccine upon request without a physician's order and without physician supervision.

**Typically, the pneumococcal vaccine is administered once in a lifetime.** Claims for pneumococcal vaccines are paid for beneficiaries who:

- Are at high risk of pneumococcal disease, and
- Have not received a pneumococcal vaccine within the last five years, or
- Are revaccinated because they are unsure of their vaccination status.

## Additional Information

---

CMS offers a number of free educational products on its Medicare Learning Network (MLN). These products are available on the MLN Preventive Services Educational Products web page located at

<http://www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/index.html> on the CMS website.

The official instruction, CR 6121, issued to your carrier, FI, and A/B MAC regarding this change may be viewed at <http://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/downloads/R366OTN.pdf> on the CMS website.

If you have any questions, please contact your carrier, FI, or A/B MAC at their toll-free number, which may be found at <http://www.cms.gov/Research-Statistics-Data-and-Systems/Monitoring-Programs/provider-compliance-interactive-map/index.html> on the CMS website.
