

News Flash – Suppliers submitting a bid for a product category in a competitive bidding area (CBA) must meet all state licensure requirements for DMEPOS and other applicable state licensure requirements, if any, for that product category for every state in that CBA. Prior to submitting a bid for a CBA and product category, the supplier must have a copy of the applicable state licenses on file with the NSC. Suppliers must be accredited for a product category to submit a bid for that product category. Suppliers subject to the surety bond requirement must be bonded in order to bid. Background

The Medicare payment for most DMEPOS is currently based on fee schedules. However, section 302(b) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA), which amended section 1847 of the Social Security Act (the Act), mandates a competitive bidding program to replace the current DMEPOS fee schedule payment amounts for selected items in selected areas.

The statute provides that competitive bidding will apply to DME meeting the definition of a “covered item” as specified in section 1834(a) (13) of the Act, including items used in infusion and drugs (other than inhalation drugs) and supplies used in conjunction with DME, but excluding class III devices under the Federal Food, Drug and Cosmetic Act. Competitive bidding will also apply to enteral nutrients, equipment, and supplies. Further, competitive bidding will apply to off-the-shelf orthotics described in section 1861(s)(9) for which payment would otherwise be made under Section 1834(h) which require minimal self-adjustment for appropriate use and do not require expertise in trimming, bending, molding, assembling, or customizing to fit the individual.

The statute, as amended by the MMA, also provided for phasing in competitive bidding beginning in 10 of the largest MSAs. Areas that may be exempt from the DMEPOS competitive bidding program include rural areas and areas with low population density within urban areas that are not competitive, unless there is a significant national market through mail order for a particular item or service.

Round One of the DMEPOS competitive bidding program was implemented on July 1, 2008, in ten competitive bidding areas, as mandated by the MMA. However, as part of MIPPA, Congress enacted a temporary delay in the competitive bidding program for Round One Competitive Bidding Areas. The law required CMS to terminate the existing contracts that were awarded in Round One and conduct a second Round One competition (the “Round One rebid”) in 2009. The MIPPA also excluded certain Round One DMEPOS items and areas from the

competitive bidding program. Section 154(a) of the MIPPA exempted group three complex rehabilitative power wheelchairs and related accessories when furnished in connection with such wheelchairs for the Round One rebid and subsequent rounds of the program, as well as, negative pressure wound therapy (NPWT) items and services from the Round One rebid competition. The MIPPA also excluded Puerto Rico as an area so that the Round One rebid competition covers nine, instead of ten of the largest MSAs. Except for the aforementioned exceptions, section 154(a) of the MIPPA requires that the Round One rebid occur in 2009 with the same items and services and the same areas as in Round One.
