Do you have your NPI? National Provider Identifiers (NPIs) will be required on claims sent on or after May 23, 2007. Every health care provider needs to get an NPI. Learn more about the NPI and how to apply for an NPI by visiting <http://www.cms.gov/Regulations-and-Guidance/HIPAA-Administrative-Simplification/NationalProvidentStand/index.html/NationalProvidentStand/> on the CMS website.

**Note:** This article was updated on October 10, 2012, to reflect current Web addresses. This article was also revised on March 11, 2011, to add a reference to MM7176, which is available at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/MM7176.pdf>, to remind providers that they must be accredited by January 1, 2012, in order to be reimbursed for these services that are performed after that date. All other information is unchanged.

## Multiple Procedure Reduction on the Technical Component (TC) of Certain Diagnostic Imaging Procedures and Cap on the TC of Imaging Procedures

payment cap on the TC payment of imaging procedures effective January 1, 2007, as required by the Deficit Reduction Act of 2005.

### GO – What You Need to Do

See the Background and Additional Information Sections of this article for further details regarding this change.

## Background

---

CMS is **implementing two provisions** in 2007 affecting imaging services. First, CMS is modifying the multiple procedure payment reduction on certain diagnostic imaging procedures implemented in 2006. Second, they are implementing a new provision of the Deficit Reduction Act of 2005 (DRA) which imposes a payment cap on most imaging procedures. (More information on the DRA is available at <http://www.cbo.gov/ftpdocs/70xx/doc7028/s1932conf.pdf> on the CMS website. More information on the fee schedule final rules is available at <http://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/PhysicianFeeSched/index.html/PhysicianFeeSched/PFSFRN/list.asp#TopOfPage> on the CMS website).

The **first CMS provision** for 2007 addresses payment for certain multiple diagnostic imaging procedures, with:

- A full payment for the first procedure, but
- A 25 percent reduction in the technical component (TC) payment for additional imaging procedures (furnished on contiguous body parts during the same session). This is a smaller reduction than the 50 percent that had previously been proposed for 2007. Table 1 below in the Additional Information Section contains a list of procedures subject to the multiple procedure payment reduction.

The **second CMS provision** limits the TC payment for most imaging procedures paid under the Medicare Physician Fee Schedule (MPFS) to the amount paid under the outpatient prospective payment system (OPPS). Table 2 below in the Additional Information Section contains a list of procedures subject to the OPPS payment cap.

Both provisions apply to TC-only services and the TC of global services. The professional component (PC) is paid in full for all procedures.

For imaging services subject to both the multiple imaging reduction policy and the outpatient hospital cap, CMS is applying:

- **First**, the multiple imaging adjustment, and
- **Second**, the outpatient cap.

## Additional Information

If you have any questions, please contact your carrier at their toll-free number, which may be found on the CMS website at <http://www.cms.gov/Research-Statistics-Data-and-Systems/Monitoring-Programs/provider-compliance-interactive-map/index.html> on the CMS website

You may want to review MM6912 at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/MM6912.pdf>, which announces that a new accreditation requirement for providing the technical component of diagnostic magnetic resonance imaging (MRI), computed tomography (CT), and nuclear medicine imaging, such as positron emission tomography (PET), is being mailed to providers and suppliers.

You may want to review MM6993 at <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/MM6993.pdf>, which alerts providers that effective January 1, 2011, CMS is consolidating the 11 advanced imaging families into a single family. Medicare will make full TC payment for the procedure with the highest priced TC and 50 percent each for the TC of each additional procedure on the same patient on the same day.

### Flu Shot Reminder

Flu season is here! Medicare patients give many reasons for not getting their flu shot, including—"It causes the flu; I don't need it; it has side effects; it's not effective; I didn't think about it; I don't like needles!" The fact is that out of the average 36,000 people in the U.S. who die each year from influenza and complications of the virus, greater than 90 percent of deaths occur in persons 65 years of age and older. You can help your Medicare patients overcome these odds and their personal barriers through patient education. Talk to your Medicare patients about the importance of getting their annual flu shot-- and don't forget to immunize yourself and your staff. **Protect yourself, your patients, and your family and friends. Get Your Flu Shot.** Remember - Influenza vaccination is a covered Part B benefit. Note that influenza vaccine is NOT a Part D covered drug. For more information about Medicare's coverage of adult immunizations and educational resources, go to CMS's website: <http://www.cms.gov/outreach-and-education/medicare-learning-network-mln/mlnmattersarticles/downloads/SE0667.pdf> on the CMS website.
