Round One Rebid of the Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) Competitive Bidding Program - Phase 8A: Hospital Exception

Note: This article was revised on April 18, 2018, to update Web addresses. All other information remains the same.

Provider Types Affected

This article is for hospitals that bill Durable Medical Equipment Medicare Administrative Contractors (DME MACs) for specific allowed competitively bid items (crutches, canes, walkers, folding manual wheelchairs, blood glucose monitors, and infusion pumps) to their patients on the day of discharge.

What You Need To Know

The Centers for Medicare & Medicaid Services (CMS) issued Change Request (CR) 6677 to announce that hospitals may furnish certain competitively bid Durable Medical Equipment (DME) items to their patients on the date of discharge without submitting a bid and being awarded a contract under the Competitive Bidding Program Round 1 Rebid. The DME competitive bid items that a hospital may furnish upon discharge as part of this exception **for Round 1 Rebid** are walkers and related accessories. Note that this applies to claims received upon implementation of the DMEPOS Competitive Bidding Program Round One. That date is January 1, 2011, but the date is subject to change.

Key Points of CR6677

- Hospitals may furnish walkers and related accessories to their patients on the date of discharge whether or not the hospital has a contract under the DMEPOS Competitive Bidding Program.

This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents. CPT only copyright 2008 American Medical Association.

- Separate payment is not made for walkers and related accessories furnished by a hospital **on the date of admission** as payment for these items is included in the Part A payment for inpatient facility services.
- Hospitals as defined below may furnish walkers and related accessories to their patients for use in the home on the date of discharge and receive payment at the applicable single payment amount, regardless of whether the hospital is a contract supplier.
- To be paid for walkers and accessories as a non-contract supplier, hospitals should **use the modifier “J4”** on the claim line in combination with the following **HCPCS codes: A4636, A4637, E0130, E0135, E0140, E0141, E0143, E0144, E0147, E0148, E0149, E0154, E0155, E0156, E0157, E0158, and E0159.**
- Hospital claims submitted for these items, for which Medicare does not find a matching date of discharge will be denied with remittance advice messages B15 (Payment adjusted because this service/procedure requires that a qualifying service/procedure be received and covered. The qualifying service/procedure had not been received/adjudicated.), M114 (This service was processed in accordance with rules and guidelines under the DMEPOS Competitive Bidding Program or other Demonstration Project. For more information regarding these projects, contact your local contractor.), and MA13 (Alert: you may be subject to penalties if you bill the patient for amounts not reported with the PR (patient responsibility) group code.). Prior to denying these DME claims, Medicare will hold the claim for up to 15 business days to await the arrival of the hospital claim with the related discharge date. If such discharge is not processed by the end of the 15 business days, the DME claim will be denied.

Background

Section 302(b) (1) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) (Pub. L. 108-173) amended Section 1847 of the Social Security Act (the Act) to require the Secretary to establish and implement programs under which competitive bidding areas (CBAs) are established throughout the United States for contract award purposes for the furnishing of certain competitively priced items and services for which payment is made under Part B (the “Medicare DMEPOS Competitive Bidding Program”).

On July, 15, 2008, section 154 of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA) amended the MMA and mandated certain changes to the competitive bidding program. One of these changes established an exception for hospitals from the competitive bidding program when they are furnishing certain items to their own patients during an admission or on the date of discharge.

A hospital under this exception **does not include a hospital-owned DME supplier**. Instead, a hospital is defined in accordance with section 1861(e) of the Social Security Act. A DME supplier that furnishes the DME item to the hospital, which then furnishes the item to the patient on the date of discharge, must be a contract supplier in the competitive bidding program.
