OTP ENROLLMENT PROCESS CHECKLIST 20

RESOURCES 21
BACKGROUND/PURPOSE

Beginning January 1, 2020, Medicare will pay Medicare-enrolled Opioid Treatment Programs (OTPs) to deliver Opioid Use Disorder (OUD) treatment services to Medicare beneficiaries. The Centers for Medicare & Medicaid Services (CMS) is now accepting and processing OTP enrollment applications. Your organization may enroll as an OTP provider if you meet certain criteria and applicable Medicare enrollment requirements.

This fact sheet helps OTPs understand how to enroll in Medicare. It includes enrollment tips and where to get help along the way. For background on this new Part B benefit for Medicare beneficiaries with OUD, visit the CMS Opioid Treatment Programs Center webpage. There is also a printable enrollment checklist at the end of this document.

To be eligible to enroll as an OTP service provider with Medicare, your program must have current, valid, and full certification by the Substance Abuse and Mental Health Services Administration (SAMHSA), and meet all the criteria required by SAMHSA including but not limited to: Drug Enforcement Administration (DEA) registration, State licensure, and accreditation.

Your Medicare Administrative Contractor (MAC) will verify your SAMHSA certification on the SAMHSA OTP directory and you must send your letter of certification from SAMHSA with your Medicare provider enrollment application. Please note that MACs will not accept applications without full SAMHSA certification and will deny applications for OTPs with “provisional” SAMHSA certification status. For information on SAMHSA certification visit: Apply for Opioid Treatment Program (OTP) Certification.
OVERVIEW OF THE OTP ENROLLMENT PROCESS

Pre-Enrollment Steps

1. Gather necessary information/documentation
2. Get a National Provider Identifier (NPI) (if you don’t already have one)
3. Identify your Medicare Administrative Contractor(s) (MACs)
4. Select a billing agency/agent (if applicable)

Submit Your Provider Enrollment Application(s) to Your MAC(s)

- Choose electronic or paper application
- Pay enrollment fee
- Complete Form CMS-855B or electronic equivalent
- Submit supporting documentation

What To Expect After Submitting Your Enrollment Application

- Respond to any requests for additional information or documentation from your MAC(s) or CMS timely through the Internet-based Provider Enrollment, Chain and Ownership System (PECOS) or in hard copy to the MAC (if needed)
- Obtain fingerprints (if necessary)

PRE-ENROLLMENT STEPS

1. Gather Necessary Information/Documentation

Before you begin the application process, make sure you have all the necessary information and documentation you need, including:

- A copy of your SAMHSA letter of certification
- A detailed organizational chart (like the one you used for your SAMHSA certification)
- Names, contact information, and Tax Identification Numbers (TINs) and/or Social Security Numbers (SSNs) for all individuals or organizations with managing control and/or ownership interest in the OTP
- Addresses and phone numbers for all practice locations of the OTP
- Copies of legal record regarding any convictions, exclusions, revocations, and suspensions associated with the OTP
Gathering this information before you begin the process will help you to complete your enrollment more quickly.

2 Get an NPI

You must have a National Provider Identifier (NPI) and include it in multiple sections of the enrollment application. Some OTPs will already have a National Provider Identifier (NPI) used in billing Medicaid or other health plans. If your OTP already has an NPI, you can skip to step 3 below. Your OTP clinicians must also get NPIs for enrollment screening, claim submission, and monitoring purposes. Get your NPI before beginning Medicare enrollment.

There are three ways to get an NPI:

- **Electronically:** Visit the [National Plan & Provider Enumeration System (NPPES)](https://nppes.cms.hhs.gov) website. The link to the [Identity & Access (I & A) Management System](https://www身份与访问管理系统) website on the right side of the NPPES log in page explains the steps to create a username and password. Once you get an I & A account, you can log in to NPPES and apply for an NPI and manage NPIs as well. You can use the same I & A account to access PECOS, the online enrollment system.

- **Paper Application:** Your OTP can complete, sign, and mail a paper application to the NPI Enumerator address on the form ([Form-CMS10114, NPI Application/Update Form](https://www.cms.gov/medical-equipment/Form-CMS10114-NPI-Application-Update-Form)).

- **Via an EFIO:** You can also give permission to an Electronic File Interchange Organization (EFIO) to submit application data through the bulk enumeration process. In other words, rather than a provider or group of providers submitting a paper or web NPI application, the EFIO gets an NPI for him/her/them via the submission of an electronic file. For more information about EFIOs and submitting your NPI application through bulk enumeration, visit the [EFI](https://www.cms.gov/medical-equipment/Form-CMS10114-NPI-Application/Update-Form) page on the CMS website.

Identify Your Medicare Administrative Contractors (MACs)

MACs are contractors that process Medicare Fee-For-Service (FFS) claims (also known as Medicare Part A and Part B claims) and enrollment applications on a jurisdiction-by-jurisdiction basis. As an OTP, you are a Part B provider.

MACs also:

- Pay providers for Medicare FFS claims
- Answer providers inquiries
- Educate providers about Medicare FFS billing requirements

If your OTP offers services in more than one State and those States are in different MAC jurisdictions, complete a separate enrollment application (CMS-855B) for each MAC jurisdiction. See the MAC Website List to find your contractor by State.

Helpful Resources:

- Who are the MACs
- Learn about the A/B MAC Jurisdictions
- MAC Contact Information

Select a billing agency/agent (if applicable)

Many providers use a billing agent to manage billing and claims processes on their behalf. If you use a billing agency/agent, you must include that information in Section 8 of the Form CMS-855B Enrollment Application. You must choose the billing agency/agent before you submit the application. If you do not use a billing agency/agent, you will check the box to indicate that it does not apply and skip to the next section.

Contact your MAC if you have questions about enrolling in Medicare.

Some MACs have separate Part A and Part B provider enrollment phone numbers and other contact information. Opioid Treatment Programs should use the Part B contact information.
SUBMIT YOUR PROVIDER ENROLLMENT APPLICATION

Apply Electronically or By Paper Form

You must decide if you will apply online or with a paper application. You can apply:

1. Electronically through the Internet-based Provider Enrollment, Chain and Ownership System (PECOS). CMS recommends applying electronically, which will allow your application to be processed faster. PECOS is an online system that lets you complete most of your enrollment activities online, including submitting your enrollment application, changing existing Medicare enrollment record information, and other processes. It captures the same information as the paper application, but PECOS simplifies the enrollment process into short, easy-to-understand steps.

   There are advantages to using PECOS including:
   - Enrolling faster than paper-based enrollment
   - Providing a tailored application process in which you only give information relevant to YOUR application
   - Offering more control over your enrollment information, including reassignments
   - Making it easy to check and update your information for accuracy
   - Requiring less staff time and administrative costs to complete and submit enrollment to Medicare

   OR

2. By submitting a paper enrollment application to the MAC. Complete the paper-based applications using the Medicare Enrollment Application: Clinics/Group Practices and Certain Other Suppliers (Form CMS-855B).

Pay the Enrollment Fee

The Medicare enrollment application fee applies to OTP providers. You must pay the enrollment fee upon initial enrollment and revalidation (every 5 years for OTP providers). CMS considers hardship exceptions on a case-by-case basis.

You can pay online through PECOS as you complete the electronic application or at https://pecos.cms.hhs.gov/pecos/feePaymentWelcome.do if you are completing a paper application.
To pay the fee you must include:

- Your NPI
- The OTP Legal Business Name
- Type of Tax Identification Information (TIN) to be provided (choose SSN or EIN from the drop down box in PECOS or checkbox on the paper application)
- The SSN or EIN (the actual number of the type indicated above)
- The State or Territory of the OTP (use the OTP primary practice location address)
- Your MAC (identified as your Fee-For-Service contractor)

- Completed Form CMS-588, for Electronic Funds Transfer Authorization Agreement. (NOTE: If a supplier already receives payments electronically and is not making a change to its banking information, the CMS-588 is not required.)
- A copy of your letter of certification from SAMHSA, with your certification number and expiration date.
- A copy of a signed and dated renewal letter from SAMHSA.

**OTPs require full certification by the Substance Abuse and Mental Health Services Administration (SAMHSA) and accreditation by a SAMHSA-approved accrediting body. Applications with “provisional” certification status will be denied.**

For more information, please visit SAMHSA's Certification of Opioid Treatment Programs (OTPs) webpage.
● An organizational chart that shows the name and title of key personnel of the OTP and the name of any central administration or larger organizational structure to which the program is responsible. The organizational chart shall report all managing employees, including the medical director and program sponsor. This may be the same chart you used to get SAMHSA certification.

● A Form CMS-1561 Provider Agreement signed and dated by an authorized or delegated official of the OTP
  • The signature must be handwritten or digitally signed.

● Copy of IRS Determination Letter, if provider is registered with the IRS as non-profit.

● Copy(s) of all final adverse action documentation (e.g., notifications, resolutions, and reinstatement letters).

● Copy of an attestation for government entities and tribal organizations.

Help with Submitting

CMS has an External User Services (EUS) help desk (see “EUS Customer Portal” link below). This resource supports people with I & A, PECOS, and other system questions. Keep in mind, the help desk may not be able to give specific information about the Opioid Treatment Program.

OTPs are mandatory participating providers and required under law to accept assignment for all services rendered to Medicare beneficiaries. Because assignment must be accepted, the automatic advantages of participation will be received.
WHAT TO EXPECT AFTER SUBMITTING YOUR ENROLLMENT APPLICATION

MAC Review of Enrollment Application

MACs take approximately 45 days to review submitted applications, but it may take longer if you use the paper application. Additionally, MACs may send development requests when they need more information or need you to take action. MACs may ask you to submit fingerprints for individuals who have a 5% or greater direct/indirect ownership, as a partner of an OTP provider when:

- Initially enrolling
- Substance Abuse and Mental Health Services Administration (SAMHSA) certified after October 23, 2018.

You should reply quickly to avoid enrollment delay or denial. To avoid these development requests and additional delays, make sure you complete all information and requirements before you submit your application.

CMS will initiate an observational site visit for initial enrollment, revalidation, and when you add a practice location.

Approval and Billing

Your MAC will notify you when they approve or deny your application. The MAC will send you a copy of the provider agreement (also signed by CMS), along with the enrollment approval letter. Once your MAC approves your enrollment application, your billing effective date is the later of the date the MAC received your application or the date you began delivering services at a new practice location. You can get a retrospective billing date for up to 30 days prior to the effective date but no earlier than January 1, 2020.

Your MAC will also issue your OTP a Provider Transaction Access Number (PTAN). A PTAN is a Medicare-only number issued to providers by MACs upon enrollment to Medicare. When a MAC approves enrollment and issues an approval letter, the letter will include your assigned PTAN.

- You must use your NPI to bill the Medicare program and your PTAN to authenticate your OTP to use your MAC’s self-help tools such as the Interactive Voice Response (IVR) phone system, internet portal, on-line application status, etc.
- You should generally only use your PTAN with your MAC.

The NPI and the PTAN are related to each other for Medicare purposes. If you have relationships with one or more medical groups or practices or with multiple Medicare contractors, MACs usually assign separate PTANS. Together, the NPI and PTAN identify your OTP in the Medicare Program. CMS maintains both the NPI and PTAN in PECOS, the national provider and supplier enrollment system.
Denied Enrollment

- If your MAC denies your enrollment due to non-compliance, you can submit a corrective action plan (CAP) within 30 days.
- MACs determine if the CAP sufficiently addresses the issue.

Changes to Your Application

- You must update any changes in ownership and/or adverse legal action history within 30 days of the change.
- You must make all other changes within 90 days of the change.

Identify Your EDI Contractor

In preparation for billing, you should identify the contractor responsible for your Electronic Data Interchange (EDI) connectivity. For further information on the level of support available by the contractor to entities that exchange Medicare Health Insurance Portability and Accountability Act (HIPAA) EDI transactions, refer to the Medicare Parts A/B and DME EDI Help Lines. You must have this information before you begin billing Medicare.

EDI is the automated transfer of data in a specific format following specific data content rules between a health care provider and Medicare, or between Medicare and another health care plan. In some cases, that transfer may take place with the assistance of a clearinghouse or billing service that represents a provider of health care or another payer.
OTP ENROLLMENT PROCESS CHECKLIST

Before beginning the enrollment process, ensure your OTP has FULL certification with SAMHSA. MACs will deny Medicare provider enrollment applications for OTPs with provisional SAMHSA certification or in the process of obtaining certification.

Pre-Enrollment Steps:
- Gather necessary information/documentation
- Get an NPI (unless OTP already uses NPI for Medicaid billing)
- Identify your MAC(s)
- Select a billing agency/agent (if applicable)

Submitting Your Provider Enrollment Application:
- Choose electronic (recommended) or paper-based enrollment
- Pay the enrollment fee
- Complete the Form CMS-855B electronic equivalent via PECOS or the form in hard copy for all appropriate MAC jurisdictions
- Send supporting documentation

What to Expect After Submitting Your Enrollment Application:
- Allow at least 45 days for your MAC(s) to review the application(s)
- Reply quickly to any requests for additional information or documentation
