OTP ENROLLMENT PROCESS CHECKLIST

RESOURCES
INTRODUCTION

This fact sheet helps Opioid Treatment Providers (OTPs) understand how to enroll in Medicare. It includes enrollment tips and where to get help along the way. Visit the CMS Opioid Treatment Programs Center webpage for background on this new Part B benefit for Medicare beneficiaries with Opioid Use Disorder (OUD). You can print the enrollment checklist at the end of this document.

BACKGROUND

January 1, 2020, Medicare began paying Medicare-enrolled OTPs to deliver OUD treatment services to Medicare beneficiaries. To begin paying OTPs for services provided on or after January 1, 2020, the Centers for Medicare & Medicaid Services (CMS) began accepting and processing OTP enrollment applications. Your organization may enroll as an OTP provider if you meet certain criteria and applicable Medicare enrollment requirements.

Beginning January 1, 2021, Medicare Part B covers hospital outpatient Opioid Treatment Program services. Health care organizations may now apply on the Medicare Enrollment Application for Institutional Providers (CMS-855A) or through the Internet-based Provider Enrollment, Chain and Ownership System (PECOS) (837I) when they enroll in the Medicare Program. These providers will submit claims using the CMS-1450.

To be eligible to enroll as an OTP service provider with Medicare, your program must have current, valid, and full certification by the Substance Abuse and Mental Health Services Administration (SAMHSA), and meet all the criteria required by SAMHSA including but not limited to: Drug Enforcement Administration (DEA) registration, State licensure, and accreditation.

Your Medicare Administrative Contractor (MAC) will verify your SAMHSA certification on the SAMHSA OTP directory. Please note that MACs will not accept applications without full SAMHSA certification and will deny applications for OTPs with “provisional” SAMHSA certification status. For information on SAMHSA certification visit: Apply for Opioid Treatment Program (OTP) Certification.
OVERVIEW OF THE OTP ENROLLMENT PROCESS

Pre-Enrollment Steps

- Gather necessary information/documentation
- Get a National Provider Identifier (NPI) (if you don’t already have one)
- Identify your Medicare Administrative Contractor(s) (MACs)
- Select a billing agency/agent (if applicable)

Submit Your Provider Enrollment Application(s) to Your MAC(s)

- Choose electronic or paper application
- Pay enrollment fee
- Complete Form CMS-855A or CMS-855B or electronic equivalent
- Submit supporting documentation

What To Expect After Submitting Your Enrollment Application

- Respond to any requests for additional information or documentation from your MAC(s) or CMS timely through the Internet-based Provider Enrollment, Chain and Ownership System (PECOS) or in hard copy to the MAC (if needed)
- Obtain fingerprints (if necessary)

What To Expect

- Respond to any requests for additional information or documentation from your MAC(s) or CMS timely through the Internet-based Provider Enrollment, Chain and Ownership System (PECOS) or in hard copy to the MAC (if needed)
- Obtain fingerprints (if necessary)

Pre-Enrollment Steps

1. Gather Necessary Information/Documentation

Before you begin the application process, make sure you have all the necessary information and documentation you need, including:

- A detailed organizational chart (like the one you used for your SAMHSA certification)
- Names, contact information, and Tax Identification Numbers (TINs) and/or Social Security Numbers (SSNs) for all individuals or organizations with ownership interest in the OTP
- Addresses and phone numbers for all practice locations of the OTP
- Copies of legal record regarding any convictions, exclusions, revocations, and suspensions for any individual or entity with 5% or greater ownership and/or managing control associated with the OTP

Figure 1: OTP Enrollment Process Diagram
Gathering this information before you begin the process will help you to complete your enrollment more quickly.

**Get an NPI**

You must have a National Provider Identifier (NPI) and include it in multiple sections of the enrollment application. Some OTPs will already have an NPI used in billing Medicaid or other health plans. If your OTP already has an NPI, you can skip to step 3 below. Your OTP clinicians must also get NPIs for enrollment screening, claim submission, and monitoring purposes. Get your NPI **before** beginning Medicare enrollment.

Apply for an NPI by one of the following three ways:

- **Electronically:** Visit the National Plan & Provider Enumeration System (NPPES) website. The link to the Identity & Access (I & A) Management System website on the right side of the NPPES log in page explains the steps to create a username and password. Once you get an I & A account, you can log in to NPPES and apply for an NPI and manage NPIs as well. You can use the same I & A account to access PECOS, the online enrollment system.

- **Paper Application:** Your OTP can complete, sign, and mail a paper application to the NPI Enumerator address on the form *(Form-CMS10114, NPI Application/Update Form)*.

- **Via an EFIO:** You can also give permission to an Electronic File Interchange Organization (EFIO) to submit application data through the bulk enumeration process. In other words, rather than a provider or group of providers submitting a paper or web NPI application, the EFIO gets an NPI for him/her/them via the submission of an electronic file. For more information about EFIOs and submitting your NPI application through bulk enumeration, visit the [EFI page](#) on the CMS website.

---

**Things to know about NPIs:**

- An NPI is a unique 10-digit identification number issued to health care providers.
- NPPES is the fastest way to get an NPI.
- Review the paper NPI application before using NPPES to understand the NPI application requirements.
- When applying for an NPI, select a taxonomy code that best represents your organization.
- The NPI Enumerator processes NPI applications and helps health care providers with related questions.
3 Identify Your MACs

Medicare Administrative Contractors process Medicare Fee-For-Service (FFS) claims (also known as Medicare Part A and Part B claims) and enrollment applications on a jurisdiction-by-jurisdiction basis. As an OTP, you are a Part A or a Part B provider.

MACs also:
- Pay providers for Medicare FFS claims
- Answer providers inquiries
- Educate providers about Medicare FFS billing requirements

If your OTP offers services in more than one State and those States are in different MAC jurisdictions, complete a separate enrollment application (CMS-855A or CMS-855B) for each MAC jurisdiction. See the MAC Website List to find your contractor by State.

4 Select a billing agency/agent (if applicable)

Many providers use a billing agent to manage billing and claims processes on their behalf. If you use a billing agency/agent, you must include that information in Section 8 of the Form CMS-855B and CMS-855A Enrollment Application. You must choose the billing agency/agent before you submit the application. If you do not use a billing agency/agent, you will check the box to indicate that it does not apply and skip to the next section.

SUBMIT YOUR PROVIDER ENROLLMENT APPLICATION

Apply Electronically or By Paper Form

You must decide if you will apply online or with a paper application. You can apply:

1. Electronically through the Internet-based Provider Enrollment, Chain and Ownership System (PECOS). CMS recommends applying electronically, which will allow your application to be processed faster.

PECOS is an online system that lets you complete most of your enrollment activities online, including submitting your enrollment application, changing existing Medicare enrollment record information, and other processes. It captures the same information as the paper application, but PECOS simplifies the enrollment process into short, easy-to-understand steps.
There are advantages to using PECOS including:

- Enrolling faster than paper-based enrollment
- Providing a tailored application process in which you only give information relevant to YOUR application
- Offering more control over your enrollment information, including reassignments
- Making it easy to check and update your information for accuracy
- Requiring less staff time and administrative costs to complete and submit enrollment to Medicare

OR

2. By submitting a paper enrollment application to the MAC. Complete the paper-based applications using the Medicare Enrollment Application: Clinics/Group Practices and Certain Other Suppliers (Form CMS-855B) or the Medicare Enrollment Application: Institutional Providers (Form CMS-855A).

Pay the Enrollment Fee

The Medicare enrollment application fee applies to OTP providers. You must pay the enrollment fee upon initial enrollment and revalidation (every 5 years for OTP providers). CMS considers hardship exceptions on a case-by-case basis.

You can pay online through PECOS as you complete the electronic application or at the Medicare Enrollment for Providers and Suppliers website if you are completing a paper application.

To pay the fee you must include:

- Your NPI
- The OTP Legal Business Name
- Type of Tax Identification Information (TIN) to be provided (choose SSN or EIN from the drop down box in PECOS or checkbox on the paper application)
- The SSN or EIN (the actual number of the type indicated above)
- The State or Territory of the OTP (use the OTP primary practice location address)
- Your MAC (identified as your Fee-For-Service contractor)
COMPLETE THE FORM CMS-855A OR CMS-855B MEDICARE ENROLLMENT APPLICATION

Important Notes:

● OTPs may enroll (and be enrolled) in Medicare via the Form CMS-855A or the Form CMS-855B but not both.

● OTPs that are currently enrolled but are changing their OTP enrollment from a Form CMS-855B to a Form CMS-855A (or vice versa) must successfully complete the limited level of categorical screening under § 424.518(a) if the OTP has already completed, as applicable, the moderate or high level of categorical screening under § 424.518(b) or (c), respectively.

● If a Form CMS-855B-enrolled OTP changes to a Form CMS-855A enrollment (or vice versa) the effective date of billing that was established for the OTP’s prior enrollment under § 424.520(d) and § 424.521(a) would be applied to the OTP’s new enrollment.

● The application fee requirements apply to OTPs changing their enrollment from a Form CMS-855B to a Form CMS-855A (or vice versa).

As an OTP provider, you only need to fill out sections 1-6, 8, 13, 15, 16 (optional) and 17 of the application:

NOTE: The instructions are separated into the CMS-855A and CMS-855B enrollment applications. While many sections of both forms are the same, some sections of the CMS-855A have slightly different instructions. Choose the enrollment application that applies to you from the icons below to be automatically directed to the correct instructions.

Section 12: Special Requirements for Home Health Agencies

All HHAs and HHA sub-units enrolling in the Medicare program must complete this section. HHAs and HHA sub-units initially enrolling in Medicare, Medicaid, or both programs on or after January 1, 1998 are required to provide documentation supporting that they have sufficient initial reserve operating funds (capitalization) to operate for the first three months in the Medicare and/or Medicaid program(s). The capitalization requirement applies to all HHAs and HHA sub-units enrolling in the Medicare program, including HHAs or HHA sub-units currently participating in the Medicare program that, as a result of a change of ownership, will be issued a new provider number. The capitalization requirement does not apply to a branch of an HHA. Regulations found at 42 C.F.R. 489.28 require that the fee-for-service contractor determine the required amount of reserve operating funds needed for the enrolling HHA or HHA sub-unit by comparing the enrolling HHA or HHA sub-unit to at least three other new HHAs that it serves which are comparable to the enrolling HHA or HHA sub-unit. Factors to be considered are geographic location, number of visits, type of HHA or HHA sub-unit and business structure of the HHA or HHA sub-unit. The fee-for-service contractor then verifies that the enrolling HHA or HHA sub-unit has the required funds. To assist the fee-for-service contractor in determining the amount of funds necessary, the enrolling HHA or HHA sub-unit should complete this section.

Check here ☐ if this section does not apply and skip to Section 13.

A. Type of Home Health Agency

1. CHECK ONE:
   - ☐ Non-Profit Agency
   - ☐ Proprietary Agency

2. PROJECTED NUMBER OF VISITS BY THIS HOME HEALTH AGENCY
   - How many visits does this HHA project it will make in the first:
     - three months of operation? ____________
     - twelve months of operation? ____________

3. FINANCIAL DOCUMENTATION
   - A) In order to expedite the enrollment process, the HHA may attach a copy of its most current savings, checking, or other financial statement(s) that verifies the initial reserve operating funds, accompanied by:
     1) An attestation from an officer of the bank or other financial institution stating that the funds are in the account(s) and are immediately available for the HHA’s use, and
     2) Certification from the HHA attesting that at least 50% of the reserve operating funds are non-borrowed funds.
   - B) Will the HHA be submitting the above documentation with this application? ☐ YES ☐ NO

NOTE: The fee-for-service contractor may require a subsequent attestation that the funds are still available. If the fee-for-service contractor determines that the HHA requires funds in addition to those indicated on the originally submitted account statement(s), it will require verification of the additional amount as well as a new attestation statement.

All HHAs and HHA sub-units enrolling in the Medicare program must complete this section.

If you have multiple NPIs associated with both a single legacy number and a single practice location, please list below all NPIs and associated legacy numbers for that practice location.

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

  - The signature must be handwritten or digitally signed.

- Copy of IRS Determination Letter, if provider is registered with the IRS as non-profit.

- Written confirmation from the IRS confirming your Limited Liability Company (LLC) is automatically classified as a Disregarded Entity. (e.g., Form 8832). (NOTE: A disregarded entity is an eligible entity that is treated as an entity not separate from its single owner for income tax purposes.)

- Statement in writing from the bank. If Medicare payment due a supplier of services is being sent to a bank (or similar financial institution) with whom the supplier has a lending relationship (that is, any type of loan), then the supplier must provide a statement in writing from the bank (which must be in the loan agreement) that the bank has agreed to waive its right of offset for Medicare receivables.

- Copy of an attestation for government entities and tribal organizations.

**Help with Submitting**

CMS has an External User Services (EUS) help desk (visit the EUS Customer Portal). This resource supports people with I & A, PECOS, and other system questions. Keep in mind, the help desk may not be able to give specific information about the Opioid Treatment Program.
WHAT TO EXPECT AFTER SUBMITTING YOUR ENROLLMENT APPLICATION

MAC Review of Enrollment Application
MACs take approximately 45 days to review submitted applications, but it may take longer if you use the paper application. Additionally, MACs may send development requests when they need more information or need you to take action. MACs may ask you to submit fingerprints for individuals who have a 5% or greater direct/indirect ownership, as a partner of an OTP provider when:

- Initially enrolling
- Substance Abuse and Mental Health Services Administration (SAMHSA) certified after October 23, 2018

You should reply quickly to avoid enrollment delay or denial. To avoid these development requests and additional delays, make sure you complete all information and requirements before you submit your application.

CMS will initiate an observational site visit for initial enrollment, revalidation, and when you add a practice location.

Approval and Billing
Your MAC will notify you when they approve or deny your application. The MAC will send you a copy of the provider agreement (also signed by CMS), along with the enrollment approval letter. Once your MAC approves your enrollment application, your billing effective date is the later of the date the MAC got your application or the date you began delivering services at a new practice location. You can get a retrospective billing date for up to 30 days prior to the effective date.

Your MAC will also issue your OTP a Provider Transaction Access Number (PTAN). A PTAN is a Medicare-only number issued to providers by MACs upon enrollment to Medicare. When a MAC approves enrollment and issues an approval letter, the letter will include your assigned PTAN.

- You must use your NPI to bill the Medicare program and your PTAN to authenticate your OTP to use your MAC’s self-help tools such as the Interactive Voice Response (IVR) phone system, internet portal, and on-line application status
- You should generally only use your PTAN with your MAC

The NPI and the PTAN are related to each other for Medicare purposes. If you have relationships with one or more medical groups or practices or with multiple Medicare contractors, MACs usually assign separate PTANS. Together, the NPI and PTAN identify your OTP in the Medicare Program. CMS maintains both the NPI and PTAN in PECOS, the national provider and supplier enrollment system.
Denied Enrollment

- If your MAC denies your enrollment due to non-compliance, you can submit a corrective action plan (CAP) within 30 days
- MACs determine if the CAP sufficiently addresses the issue

Changes to Your Application

- You must update any changes in ownership and/or adverse legal action history within 30 days of the change
- You must make all other changes within 90 days of the change

Identify Your EDI Contractor

In preparation for billing, you should identify the contractor responsible for your Electronic Data Interchange (EDI) connectivity. For further information on the level of support available by the contractor to entities that exchange Medicare Health Insurance Portability and Accountability Act (HIPAA) EDI transactions, refer to the Medicare Parts A/B and DME EDI Help Lines. You must have this information before you begin billing Medicare.

EDI is the automated transfer of data in a specific format following specific data content rules between a health care provider and Medicare, or between Medicare and another health care plan. In some cases, that transfer may take place with the help of a clearinghouse or billing service that represents a provider of health care or another payer.
OTP ENROLLMENT PROCESS CHECKLIST

Before beginning the enrollment process, ensure your OTP has FULL certification with SAMHSA. MACs will deny Medicare provider enrollment applications for OTPs with provisional SAMHSA certification or in the process of obtaining certification.

Pre-Enrollment Steps:

☐ Gather necessary information/documentation
☐ Get an NPI (unless OTP already uses NPI for Medicaid billing)
☐ Identify your MAC(s)
☐ Select a billing agency/agent (if applicable)

Submitting Your Provider Enrollment Application:

☐ Choose electronic (recommended) or paper-based enrollment
☐ Pay the enrollment fee
☐ Complete the Form CMS-855A or Form CMS-855B electronic equivalent via PECOS, or the form in hard copy for all appropriate MAC jurisdictions
☐ Send supporting documentation

What to Expect After Submitting Your Enrollment Application:

☐ Allow at least 45 days for your MAC(s) to review the application(s)
☐ Reply quickly to any requests for additional information or documentation
☐ If approved, begin furnishing and billing OTP services starting on the billing effective date. The billing effective date is the later of: the date the MAC received your application OR the date you began delivering services at new location
☐ If you are switching your enrollment form a CMS-855B enrollment to a CMS-855A enrollment, or vice versa, the effective date of billing privileges that was established for the OTP’s prior enrollment applies to your new enrollment. Your old enrollment must be deactivated and claim submission verified as you cannot duplicate billing. If you have submitted claims with your initial enrollment, the MAC will make your effective date for your new enrollment the day after the last claim was filed for the old enrollment
☐ If denied, submit a corrective action plan within 30 days
☐ Update any changes in ownership and/or adverse legal action history within 30 days, and all other changes within 90 days
☐ Identify your EDI contractor
