This Medicare Physician Fee Schedule Fact Sheet is no longer available.

The Centers for Medicare & Medicaid Services (CMS) Physician Fee Schedule Search Tool provides Medicare payment information on more than 10,000 services, including pricing, the associated Relative Value Units (RVUs), and various payment policies.

A revised [How to Use The Searchable Medicare Physician Fee Schedule](#) (MPFS) booklet is now available.

The MPFS is the primary method of payment for enrolled health care professionals. Specifically, Medicare uses this fee schedule when paying the following services:

- Professional services of physicians and other enrolled health care professionals in private practice
- Services covered incident to physicians' services (other than certain drugs covered as incident to services)
- Diagnostic tests (other than clinical laboratory tests)
- Radiology services

For more information, or to start your search see the [Physician Fee Schedule Overview](#) on the CMS website.
