<p>* The actual update factor revises the earlier projected factor for the specified cost reporting period. It is applied to the prior period's per resident amount and used in determining the current period's final settlement. For cost reporting periods beginning on or after July 1, 1987, the actual update factor accounts for the 12-month percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) ending at the midpoint of the specified cost reporting period.</p> <p>** The projected update factor for a specified cost reporting period is applied to the prior period's per resident amount and used only for interim payment purposes. Projected update factors are based on forecasts of the CPI-U All Items that are provided to CMS by IHS Global Insight, Inc. on a quarterly basis.</p>
