This Medicare Physician Fee Schedule Fact Sheet is no longer available.

The Centers for Medicare & Medicaid Services (CMS) Physician Fee Schedule Search Tool provides Medicare payment information on more than 10,000 services, including pricing, the associated Relative Value Units (RVUs), and various payment policies.

A revised How to Use The Searchable Medicare Physician Fee Schedule (MPFS) booklet is now available.

The MPFS is the primary method of payment for enrolled health care professionals. Specifically, Medicare uses this fee schedule when paying the following services:

- Professional services of physicians and other enrolled health care professionals in private practice
- Services covered incident to physicians’ services (other than certain drugs covered as incident to services)
- Diagnostic tests (other than clinical laboratory tests)
- Radiology services

For more information, or to start your search see the Physician Fee Schedule Overview on the CMS website.
