November 25, 2009

Dear Clinician Outreach and Communication Activity (COCA) Partner,

The CDC is committed to providing information to its partners, so that you can stay informed and communicate accurate information to your constituents. Please remember to send any questions or comments to coca@cdc.gov. We want to ensure that these updates are timely and helpful.

To assist in your efforts, please see the following materials and resources:

A. COCA RSS News Feed

We would like to inform you of a new feature for receiving COCA messages via RSS feeds. Our Clinician Outreach and Communication Activity (COCA) Really Simple Syndication (RSS) is available to all our partners and listserv subscribers.

A subscription to the COCA RSS feeds will initiate automatic delivery of updates and timely notices, such as media announcements, right to your desktop or browser. This may be especially useful for your communications and/or public affairs staff.

Please note that this will not replace the regular COCA updates and training announcements which will continue to come directly to your email, RSS feeds are a supplemental communication method used by COCA to provide you with information.

- For additional information on RSS and how to obtain RSS news feed reader software, please go to: <http://www2c.cdc.gov/podcasts/rsshhelp.asp>
- To add COCA RSS feeds to your RSS news feed reader, please add: <http://www2a.cdc.gov/podcasts/createrss.asp?t=r&c=224> to your reader according to the instructions for your particular news feed.
- For more information on adding additional CDC Emergency Preparedness and Response RSS feeds, please go to: <http://emergency.cdc.gov/rss/>

B. Key Points and VAERS Report

Attached please find CDC's 2009 H1N1 Key Points from November 25, 2009 and the updated Vaccine Adverse Event Reporting System (VAERS) summary.

C. New and Updated Interim Guidance and Links to Resources for Clinicians

- Update: 2009 H1N1 Monovalent Influenza Vaccine Dosage, Administration, and Storage
