WHO welcomes Sanofi-Aventis's donation of vaccine - WHO - June 17

One hundred million doses of vaccine against the pandemic H1N1 2009 virus is a sizeable and generous gesture to and on behalf of the world's less-developed countries. WHO will now work to ensure that this vaccine gets to groups who otherwise would have no access to pandemic vaccines.

Emergency Preparedness

An ADA Guide for Local Governments Making Community Emergency Preparedness and Response Programs Accessible to People with Disabilities - ADA

One of the most important roles of local government is to protect their citizenry from harm, including helping people prepare for and respond to emergencies. Making local government emergency preparedness and response programs accessible to people with disabilities is a critical part of this responsibility.

Travelers' Health

Outbreak Notice Novel H1N1 Flu: Global Situation - CDC - June 17

Novel H1N1 flu cases have been reported in many countries around the world, with most of the cases being reported from the United States, Mexico, and Canada. Overall, the numbers of new cases of novel H1N1 flu in Mexico and the United States appears to be declining. However, outbreaks continue to be reported in some communities.
